## NATURAL RESOURCES – Jake Tibbitts, Natural Resources Manager

1. Report on current and emerging natural resource issues affecting Eureka County. (Discussion)

Natural Resources Manager, Jake Tibbitts reported that on October 28 he traveled to Winnemucca to attend the Mormon Cricket and Grasshopper post season meeting held by the USDA APHIS and State Department of AG. He reported from that meeting there was a lot of discussion about funding for aerial treatments, and that they don't expect the same treatments this next spring. The BLM hosted their Greenlink North Project meeting here at the Opera House on October 30<sup>th</sup>, Jake was surprised in the lack of turnout from the public. He wants to remind everyone that the EIS is out and comments are due on December 11. There was a Water legislation meeting in Reno on November 6. Jake reminded the Board that they will start to see legislative language on every agenda moving forward. November 7 the Conservation District held their election with the help of Kathy Bowling and her election staff. Vicki Buchanan and Gary McCuin were both reelected to their seats. Jake reported that as of that day November 15, the Greater Sage Grouse Final EIS and proposed resource management plan amendment hit the Federal Register. Jake and the Commissioners will be attending The Central Nevada Regional Water Authority Legislative committee meeting on December 2<sup>nd</sup> and i80's meeting.

2. Discuss, approve or deny using the services of Eureka County's water counsel, Allison MacKenzie Law Office, to file an *Amicus Curiae* brief in the case of *Baker Ranches, Inc., et al. v. Haaland, et al.*, regarding the federal government's waiver of sovereign immunity in cases involving administration of water rights decrees. *Note: Efforts are being made to have other aligned entities join this effort to share some costs and reduce filings.* (For Possible Action)

Jake explained that the Humbolt River Basin could potentially be affected during the case of Baker Ranches, Inc., et al. v. Haaland, et al. Pine Valley, all of Crescent Valley, all of Boulder Flat, Maggie Creek and the whole northern part of the county is in the Humbolt River Basin. He suggests the County use the services of Allison MacKenzie Law Office, to file an Amicus Curiae brief to help protect Eureka County.

The Board took a 5-minute recess. Chairman McKay called the meeting back to order at 11:28 a.m.

NATURAL RESOURCES – Jake Tibbitts, Natural Resources Director

1. Report on current and emerging natural resource issues affecting Eureka County. (Discussion)

Natural Resources Director, Jake Tibbitts reported that on the morning of November 15<sup>th</sup> the BLM signed the record of decision and the plan of operations approval for the Nevada Gold Mines Robertson Project. The valley is 100% in Lander County, but the population increase in town and the strains on the county services directly effects Crescent Valley. It will add 45 new Nevada Gold Mines employees and 50 contractors, it will be about a 12 year mine. On the 20<sup>th</sup> Chairman McKay, acting Sheriff Miles Umina and Jake met with i80 Gold to talk through the county comments on the draft EA. The Habitat Project started the previous Wednesday removing Pinyon Pine and Juniper trees, they worked through Thanksgiving and the weekend and completed 630 acres. He made aware to the Board that he received an inquiry from a consulting group that a client is looking to build a wind project in Eureka County, there is no indication of where they're proposing it. Because Eureka County has no permitting or zoning the company does not have to formally file anything stating the project is moving forward. The blast that was planned at Ruby Hill for that day was postponed until Thursday the 5<sup>th</sup> around noon.

2. Discuss and consider providing comments to BLM on the Greenlink North Transmission Project Draft Environmental Impact Statement. (For Possible Action)

Jake Tibbitts suggested the Board provide comments to BLM on the Greenlink North Transmission Project Draft Environmental Impact Statement; the disposal grounds impact and highlight that the utility corridor borders private lands. He also suggests asking for them to shift the utility corridor line around the fairgrounds, so it doesn't impact town growth, social economics and encroaches on habitat work.

Commissioner Plaskett motioned to approve providing comments to BLM on the Greenlink North Transmission Project Draft Environmental Impact Statement, Commissioner Schoenwald seconded the motion, all in favor, motion carried 3-0.

3. Discuss and consider providing comments to Battle Mountain BLM on the 2025 Fish Creek Herd Management Area Wild Horse Gather and Population Management and associated Determination of NEPA Adequacy. (For Possible Action)

Jake Tibbitts explained that the 2025 Fish Creek Herd Management Area Wild Horse Gather and Population Management will be complete in January, and he suggests a letter of support in the project.

Commissioner Plaskett motioned to approve providing comments to Battle Mountain BLM on the 2025 Fish Creek Herd Management Area Wild Horse Gather and Population Management and associated Determination of NEPA Adequacy. Commissioner Schoenwald seconded the motion, all in favor, motion carried 3-0.

4. Discuss and consider formal protest of BLM Proposed Resource Management Plan Amendment and Final Environmental Impact Statement for Greater Sage Grouse. (For Possible Action)

Jake Tibbitts suggested to the Board that they provide comments protesting the BLM Proposed Resource Management Plan Amendment and Final Environmental Impact Statement for Greater Sage Grouse. He suggests the comments include the BLM imposing a disturbance cap and adaptive management.

Commissioner Plaskett motioned to approve a formal protest of BLM Proposed Resource Management Plan Amendment and Final Environmental Impact Statement for Greater Sage Grouse. Commissioner Schoenwald seconded the motion, all in favor, motion carried 3-0.

# **Independent Auditor's Report**

To the Honorable Board of Commissioners Eureka County, State of Nevada Eureka, Nevada

# **Report on the Audit of the Financial Statements**

# **Opinions**

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Eureka County, State of Nevada (the County) as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Eureka County, as of June 30, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

# Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

# Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing an
  opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is
  expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

# **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis, schedules of budgetary comparison and reconciliation information, the Schedules of Changes in the County's Total OPEB Liability and Related Ratios, the Schedule of County's Share of Net Pension Liability, the Schedule of County's Contributions, and the notes to required supplementary information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial

statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

We have applied certain limited procedures to the Management's Discussion and Analysis, the Schedules of Changes in the County's Total OPEB Liability and Related Ratios, the Schedule of County's Share of Net Pension Liability, and the Schedule of County's Contributions in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The schedules of budgetary comparison and reconciliation information and related notes are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The schedules of budgetary comparison and reconciliation information and related notes have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the schedules of budgetary comparison and reconciliation information and related notes are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The General Fund Schedule of Revenues, Expenditures, and Changes in Fund Balances – Budget and Actual (Budgetary Basis), the Road Fund Schedule of Revenues, Expenditures, and Changes in Fund Balances – Budget and Actual, the Regional Transportation Fund Schedule of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual, and the Building Operation and Maintenance Reserve Fund Schedule of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual for the year ended June 30, 2023 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the 2023 financial statements. The information was subjected to the audit procedures applied in the audit of the 2023 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those financial statements or to those financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the General Fund Schedule of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual (Budgetary Basis), the Road Fund Schedule of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual, the Regional Transportation Fund Schedule of Revenues, Expenditures, and Changes in Fund Balances – Budget and Actual, and the Building Operation and Maintenance Reserve Fund Schedule of Revenues, Expenditures, and Changes in Fund Balances -Budget and Actual, are fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2023.

# Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual fund financial statements and schedules, and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the combining and individual fund financial statements and schedules, and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Reguirements, Cost Principles, and Audit Requirements for Federal Awards are fairly stated, in all material respects, in relation to the financial statements taken as a whole.

We also previously audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statements of Eureka County as of and for the year ended June 30, 2023 (not presented herein), and have issued our report thereon dated December 4, 2023 which contained unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information. The combining and individual fund financial statements and schedules for the year ended June 30, 2023, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the 2023 financial statements. The information was subjected to the audit procedures applied in the audit of the 2023 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those financial statements or to those financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2023.

# Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 12, 2024, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Elko, Nevada

December 12, 2024

# **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to Eureka County's basic financial statements. Eureka County's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

#### **Government-wide Financial Statements**

The *government-wide financial statements* are designed to provide readers with a broad overview of Eureka County's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of Eureka County's assets, deferred outflows of resources, liabilities, deferred inflows of resources, with the difference between them reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Eureka County is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of Eureka County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of Eureka County include general government, public safety, judicial, public works, health and sanitation, culture and recreation, and community support. The business-type activities of Eureka County include one water/sewer utility, and two additional water utilities.

The government-wide financial statements can be found on pages 13-14 of this report.

#### **Fund Financial Statements**

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Eureka County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of Eureka County can be divided into three categories: governmental funds, proprietary funds, and custodial funds.

#### **Governmental Funds**

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of expendable resources on balances of expendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

Eureka County maintains twenty-six individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and three other funds, which are considered to be major funds. Data from the other twenty-two governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of *combining and individual fund statements and schedules* elsewhere in this report.

Eureka County adopts an annual appropriated budget for all of these funds. A budgetary comparison schedule has been provided for all funds to demonstrate compliance with this budget.

The basic governmental fund financial statements and reconciliations can be found on pages 15-18 of this report.

## **Proprietary Funds**

As of Fiscal-Year 2024, Eureka County maintains three proprietary type funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide information for the Devil's Gate General Improvement District, Eureka Water/Sewer and Crescent Valley Water which are considered to be major funds of Eureka County.

The basic proprietary fund financial statements can be found on pages 19-22 of this report.

# **Fiduciary (Custodial) Funds**

Fiduciary funds are used to account for resources held for the benefit of parties outside the government (custodial). Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are not available to support Eureka County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statement can be found on page 23-24 of this report.

#### **Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 25-56 of this report.

#### Other Information

In connection with major governmental funds the individual fund statements and schedules can be found on pages 56-73 of this report. In connection with non-major governmental funds the combining and individual fund statements and schedules can be found on pages 74-108 of this report. The major proprietary fund individual fund statements can be found on pages 109-111 of this report.

# **Government-Wide Financial Analysis**

As noted earlier, Eureka County's net position may serve over time as a useful indicator of a government's financial position. In the case of Eureka County, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$156,225,302 at the close of the most recent fiscal year.

The largest portion of Eureka County's net position reflects its net investment in capital assets (e.g., land, buildings, machinery, and equipment). There is no outstanding related debt used to acquire those assets. Eureka County uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending.

The following table provides a summary of Eureka County's net position at June 30, 2024:

Eureka County's *unrestricted net position* \$56,191,361 may be used to meet the government's ongoing obligation to citizens and creditors.

At the end of the current fiscal year, Eureka County is able to report positive balances in all categories of net position, both for the government as a whole, as well as for the governmental and business-type activities. The same situation held true for the prior fiscal year.

#### **Governmental Activities**

Governmental activities increased Eureka County's net position by \$4,863,284. Overall, County general and program revenues increased \$3,906,750 during fiscal year 2024 compared to fiscal year 2023. This is mainly a result of an increase in consolidated taxes, investment earnings, and a tax sale.

# **Business-Type Activities**

Business-type activities increased Eureka County's net position by \$4,111,919. This was mainly due a transfer of \$4,000,000 from the General Fund to the Eureka Water/Sewer fund to assist with a major water/sewer replacement project. Commissioners review the rates during the budget process and there has not been a rate increase since 2010. Depreciation expense for the current fiscal year was \$1,192,322.

The following table represents the County's changes in net position:

# **Financial Analysis of the Government's Funds**

# **Major Governmental Fund Balance Changes**

The Eureka County General Fund (budgetary basis) ending fund balance decreased to \$43,278,879 in Fiscal Year 2024 compared to \$52,643,311 at the end of fiscal year 2023. This is mainly due to transfers of \$15,000,000 to various other accounts to assist with major projects and funding shortages.

The Road Fund showed a decrease of \$1,295,235 in its fund balance and the Regional Transportation Fund (RTC) showed an increase of \$2,466,144 in its fund balance. There will be a major road paving project in fiscal years 2025-2028, which is being funded by General Fund money being transferred over. The Building Maintenance and Operations Fund showed an increase of \$157,413 in its fund balance. There is a major roof repair and AC units replaced at the Annex, and key pad devices placed on various County buildings.

# **Major Proprietary Fund Balance Changes**

Unrestricted net position in the Eureka Town Water/Sewer Fund at June 30, 2024 was \$1,532,309, and the fund had an increase in net position of \$3,675,469 from the prior fiscal year. Unrestricted net position in the Crescent Valley Water Fund was \$626,126, and the fund had an increase in net position of \$614,133 from the prior fiscal year. Unrestricted net position in the Devils Gate General Improvement District was \$839,776, and the fund had a decrease in net position of \$177,683 from the prior fiscal year. There was a transfer from the General Fund to the Eureka Water/Sewer of \$4,000,000 for a water/sewer replacement project and a transfer to the Crescent Valley Water of \$500,000 for operating expenses.

# Budgetary Highlights - Fiscal Year Ended June 30, 2024

The budget statements reflect a comparison of budgeted revenues and expenditures to actual for the year ended June 30, 2024. The budget statements were prepared from the final budget as filed with the Nevada Department of Taxation. Line item transfers between functions were made during the year as approved by the County Commissioners and for grant augmentations.

# Significant Budgetary Variances Between the Final Amended Budget and Actual Results

#### **General Fund (Budgetary Basis)**

#### **Revenues**

In the General Fund, there was an increase in revenues overall. Revenues increased from the budget by \$3,085,734. The General Fund revenues were \$24,296,512 and the budgeted total was \$21,210,778. The increase can mainly be attributed to interest and investment earning and consolidated tax. The PILT (Payment in Lieu of Taxes) was budgeted at \$380,000 but \$419,468 was received from the Federal Government. Assessor Commissions revenues were \$191,022 more than the budgeted amount. Assessor Commission collections are driven by property taxes. Consolidated Tax Collections (primary state sales tax) were \$1,749,211 more than budgeted projections, and \$1,018,909 higher than the prior year. Interest earnings were \$495,816 more than budgeted and the net change in fair value of investments was \$1,092,867 higher than budgeted.

# **Expenditures**

Actual expenditures were \$18,574,966, which was \$13,736,769 less than the budget appropriations for the year. Several departments spent significantly less than budgeted due to budgeted positions not being filled and reductions in the purchase of services and supplies.

Overall, the total ending fund balance was \$43,278,879, which is \$25,521,717 more than budgeted. The General Fund transferred out \$15,250,000 to other various funds to assist with major projects and operating expenses.

Additional General Fund budget information can be found on pages 57-64.

# **Other Major Funds**

Capital outlay was expended in the Road Fund in the amount of \$774,918 for the purchase of a car lift, street sweeper, belly dump, dump truck and pickup truck.

Capital outlay was expended in the Regional Transportation Fund in the amount of \$8,831,203 for county wide road improvement projects.

Capital outlay was expended in the Building Maintenance and Operations for the Annex roof repaid, AC units replaced and key pad on various county buildings in the amount of \$161,346.

Other major fund budget information can be found on pages 66-68.

# **Capital Assets**

Eureka County's investment in capital assets for its governmental and business-type activities as of June 30, 2024 amounts to \$77,152,759 (net of accumulated depreciation). This investment in capital assets includes land, buildings, water and sewer systems, improvements, machinery and equipment, park facilities, roads, highways, and bridges. Eureka County's investment in capital assets for fiscal year 2024 increased \$12,566,525.

Major additions in the current year included Elevator repairs at the Opera House and Courthouse, Pickups for Public Works, Airport Layout Plan, Networking upgrades county-wide, Flood repairs and culverts, street sweeper, belly dump, dump truck, roof repairs, AC units replaced, forklift, radio repeater upgrades, Crescent Valley tank cleaning and recoating, Crescent Valley storage container, Devil's Gate meter pit replacements, Kobeh Valley transmission line engineering, two printer/copiers for offices and a major county-wide paving and water/sewer project.

Additional information regarding capital assets can be found at Note 3 on page 38-39.

# **Economic Factors and Next Year's Budgets and Rates**

- The unemployment rate for Eureka County as of June 30, 2024 was 6.89 percent, which is a higher rate from one year ago. The State of Nevada average unemployment rate of 5.2 percent exceeds the national average rate of 4.1 percent.
- The occupancy rate of the government's central business district has remained constant for the past few years. There have been a few new businesses move into the downtown area.
- Inflationary trends in the region compare favorably to national indices.
- Mining Companies in the area continue to bring in sales and residents to the communities.
- Lack of housing continues to be an issue for residents moving to Eureka County.
- Eureka County will continue a major county-wide paving project over the next few years.
- Eureka County experienced a major flooding event in the Spring of 2023 which impacted some minor roads. We budgeted for repairs of those roads and expect to receive a reimbursement from FEMA within the next few years.

All of these factors were considered in preparing Eureka County's budget for the 2025 fiscal year.

Eureka County has appropriated \$46,804,001 for Governmental Fund spending in the 2025 fiscal year budget.

#### **Postemployment Benefits**

The number of retirees utilizing this benefit increased in Fiscal Year 2024 at forty-eight. The monthly bill is approximately \$15,049. The Other Postemployment Benefits (OPEB) report was produced for Eureka County by MacLeod Watts, Inc. in 2024. The OPEB information is located in the footnotes of this report.

# **Property Tax Sales**

It is the responsibility of the County Clerk/Treasurer to hold regular delinquent real property tax sales. A delinquent real property tax sale was held in April 2024 by mail in bidding.

# Note 1 - Summary of Significant Accounting Policies

Eureka County, State of Nevada, (the "County") is a local government created under the provisions of Nevada Revised Statutes (NRS) 243.110. Eureka County is governed by an elected Board of three Commissioners who possess final decision-making authority and is held primarily accountable for those decisions. The County Commission is responsible for approving the budget, establishing spending limitations, funding any deficits, and borrowing funds and/or issuing bonds to finance county system operations and construction.

The accounting policies of the County conform to accounting principles generally accepted in the United States of America as applicable to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing these accounting and financial principles.

The accounting and reporting framework and the more significant accounting policies are as follows:

# **Reporting Entity**

The financial statements included herein present the County and its component units, entities for which the County is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the County's operations. Thus, data from these units (Eureka Town, Crescent Valley Town, Diamond Valley Weed and Rodent Control Districts, and Agricultural District # 15) are combined with data of the County. The County has one discretely presented component unit, the Eureka County Television District. The component units presented have a June 30 year-end.

The County receives and disburses money in various accounts held for other entities, such as property taxes collected pending settlement to another entity. These accounts are maintained only in a fiduciary capacity in fiduciary funds and are not included in this report beyond that capacity.

The unincorporated towns of Eureka and Crescent Valley serve the citizens of the County. Crescent Valley Town has an advisory board of three elected members. The final operational and financial decisions are made by the County Commissioners. The property tax rates are authorized and approved by the County Commission. Any legal liabilities for the general obligations of these unincorporated towns remain with the County. The financial activities of the unincorporated towns are reported in special revenue and proprietary funds.

Diamond Valley Weed and Rodent Control Districts are special districts created to provide services to control certain undesirable items within the districts. The Districts share the same governing boards as the general County. The Agricultural District #15 is a special district that provides for the Eureka County Fair. The districts are reported as special revenue funds. The Eureka County Television District is a special district providing television broadcast services to Eureka County and is included as a discretely presented component unit. The Eureka County Television District is legally separate from the County; however, the County can impose its will upon the District through the budget and tax rate approval process.

#### **Government-Wide and Fund Financial Statements**

The basic financial statements consist of government-wide statements and the fund financial statements. The government-wide financial statements include a statement of net position and a statement of activities. The government-wide statements report information on all of the non-fiduciary activities of the primary government and its component units.

For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of net position presents the financial position of the County at year-end in separate columns, for both governmental and business-type activities. The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to patrons who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and revenues properly not included among program revenues are reported instead as general revenues. Those programs or functions with a net cost not supported by program revenues are generally dependent on general-purposes revenues, such as taxes, to remain operational.

The fund financial statements provide information about the County's funds. Separate statements for each fund category – governmental, proprietary, and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental, enterprise, and fiduciary funds are aggregated and reported as nonmajor funds.

# Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Grant revenues are reflected as unearned revenue if funds have been received prior to meeting such requirements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Gross receipts and sales taxes are considered "measurable" when in the hands of intermediary collecting agents or governments. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days after the end of the current fiscal period. Anticipated refunds of taxes are recorded as liabilities and reductions of revenue when they are measurable, and the payment seems certain. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, expenditures related to compensated absences, employment benefits, and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the County.

The major revenue sources of the County include tax revenues, ad valorem (property) taxes, governmental services tax, interest income and various state and federal grants. Ad valorem taxes are reflected as deferred inflows of resources in the individual funds if they are not available to finance the activities of the current period.

The County's financial records are organized on the basis of funds, which are independent fiscal and accounting entities with a separate set of self-balancing accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions.

The County reports the following major governmental funds:

- General Fund The general fund is the general operating fund of the County. It is used to account for all financial resources and costs of operations traditionally associated with governments, which are not required to be accounted for in another fund.
- Road Fund To account for money received primarily from the County fuel tax. Expenditures are limited to construction, repair and maintenance of County roads and bridges, and the purchase of machinery and implements necessary to do such work.
- Regional Transportation Fund To account for proceeds of the County Option Fuel Tax pursuant to NRS 373.110. Expenditures are limited to improvements and maintenance of streets and highways.
- The Building Operation and Maintenance Reserve Fund To account for money received and held for future property and equipment operation and maintenance requirements.

The County also reports the following non-major governmental funds:

- Special Revenue Funds These funds account for specific financial resources that are legally restricted or committed by Board action to expenditures for specific purposes.
- Capital Projects Fund This fund accounts for financial resources to be used for the acquisition or construction of major capital assets. Resources are provided by ad valorem taxes and interest income.

The County reports the following major enterprise funds:

- Eureka Town Water/Sewer Fund To account for all revenues and expenses used to provide water and sewer services to the residents of the town of Eureka.
- Crescent Valley Water Fund To account for all revenues and expenses used to provide water services to the residents of the town of Crescent Valley.
- Devil's Gate General Improvement District (G.I.D.) Enterprise Fund To account for all revenues and expenses used to provide water services to the residents of the Devil's Gate General Improvement District.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services or producing and delivering goods in connection with the proprietary funds' principal ongoing operations. The principal operating revenues of the enterprise funds are charges for water and or sewer use and assessments to the various residents and property owners. Operating expenses for the enterprise funds include the costs of providing water and sewer services, administrative expenses, and depreciation on capital assets. Revenue and expense not meeting this definition are reported as non-operating revenues and expenses.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. The effects of interfund services provided and used have not been eliminated in those statements.

# **Property Taxes**

All real property in Eureka County is assigned a parcel number in accordance with state law, with each parcel being subject to physical reappraisal every five years. A factoring system is used to adjust the appraised value during the years between physical appraisals. The assessed valuation of the property and its improvements is assessed at 35% of "taxable value" as defined by statute. The amount of tax levied is determined by multiplying the assessed value by the tax rate applicable to the area in which the property is located. In 2005, the Nevada State Legislature passed Assembly Bill 489 which provides for a partial abatement of the property tax levied on qualified property. For qualified property, the abatement may limit the increase of property taxes based on the previous year's assessed value.

The maximum tax rate was established in the State Constitution at \$5.00 per hundred dollars of assessed valuation; however, as a result of the 1979 legislative session, the tax rate was further limited to \$3.64 per hundred dollars of assessed valuation unless the electorate approves an additional rate. Legislation passed during the 1981 legislative session provided for a reduction in the property tax rate based upon a legislatively derived formula.

To help offset this loss in property tax revenue, the state sales tax was increased from 3.5% to 5.75% by the State Legislature. The 1991 legislature further increased the minimum sales tax to 6.5%. This increase in sales tax, less .5% of collections to cover administrative costs, is being returned to the local governments as a part of the consolidated tax. The amount of sales tax to be distributed to each governmental entity in Nevada is determined by a formula developed and approved by the State Legislature.

Taxes on real property are levied and the lien on the property attached on July 1 (the levy date) of the year for which the taxes are levied. Taxes are due on the third Monday in August; however, they may be paid in four installments payable on the third Monday in August, and the first Mondays in October, January and March. Any tax paid more than ten days late is assessed a penalty. In the event of nonpayment, the County Treasurer records a Trustee's Certificate holding the property for a period of two years after the first Monday in June of the year the certificate is dated, unless sooner redeemed upon payment of taxes, penalties and costs together with interest at the rate of 10% per year from the date the taxes were due until paid. If delinquent taxes are not paid within the two-year redemption period, the County Treasurer, obtains a tax deed to the property free of all encumbrances. Upon receipt of a deed, the County Treasurer may sell the property to satisfy the tax lien once all requirements are met.

Taxes on personal property are collected currently. Personal property declarations are mailed out annually and the tax is computed using percentages of taxable values established by the Department of Taxation and tax rates described above. The major classifications of personal property are commercial, mobile homes, marine, aircraft and agricultural. In Eureka County, taxes on motor vehicles are also collected by the County Assessor and remitted to the State. The taxes are then returned to the county of origin to be apportioned based on a statutory formula as part of Consolidated Tax Revenue.

Eureka County collects property taxes for all entities with a tax rate within the County and remits the tax collected the month following collection to the appropriate entity.

Property tax revenue and the related receivable have been recognized for property tax assessments in the fiscal year for which they were levied, provided that such taxes were collected within 60 days after the County's year-end. Taxes receivable not collected within such time period are recorded as deferred revenue at the County's year-end in the individual fund financial statements.

## **Cash and Cash Equivalents**

For purposes of the statement of cash flows, the County of Eureka considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents. Based on the nature of the investment policies, all amounts are available on demand and are, therefore, classified as cash equivalents on the statements of cash flows.

#### **Cash and Investments**

Cash includes amounts in demand deposits as well as short-term investments with an original maturity date within three months of the date of acquisition. Cash balances from most funds are combined, held and invested by the County Treasurer. Short-term investments are stated at cost, which is or approximates fair market value. Long-term investments are stated at fair value at the balance sheet date.

State statutes authorize deposits in any bank, credit union or savings and loan that are federally insured. The County may invest in the following securities:

- United States bonds and debentures, bills and notes of the United States Treasury, or obligations of the United States or a corporation sponsored by the government maturing within ten (10) years from the date of purchase.
- Certain farm loan bonds.
- Negotiable certificates of deposit from commercial banks, insured credit unions or insured savings and loan associations.
- State of Nevada Local Government Pooled Investment Fund (unrated).
- Certain securities issued by local governments of the State of Nevada.
- Certain "AAA" rated money market mutual funds that invest in federal securities.
- Other securities expressly provided by other statutes, including repurchase agreements.
- Certain banker's acceptances not to exceed 180 days maturities or 20% of the money available for investment.
- Obligations of state and local governments rated A or higher and exempt from gross income for federal income tax purposes.
- Certain corporate or depository institution commercial paper purchased from a registered broker-dealer rated A-1, P-1, or better with maturity of no more than 270 days.

#### **Accounts Receivable**

Accounts receivable does not include an allowance for doubtful accounts as management deems their collectability as deems the accounts are collectable based on historical experience.

# **Inventories and Prepaid Expenses**

The General Fund records inventory for fuel at the airport which is valued at cost on a first-in, first-out basis.

Expenditures for consumable supplies and minor equipment purchases are charged against appropriations of all governmental funds at the time of purchase. Any inventories of such supplies at June 30 are not material to the individual funds and are not recognized in these financial statements.

Prepaid expenses are recognized as an expenditure in the period that payment is made under the purchase method.

# **Capital Assets**

Capital assets are valued in accordance with policy adopted as detailed below:

- 1. Assets acquired prior to July 1, 1968, were valued at cost if determinable or at estimated present value by the various County officials and department supervisors.
- 2. County buildings were established at insurable value at June 30, 1969, except for the Diagnostic and Treatment Center that was established at cost.
- 3. All assets acquired since July 1, 1968, are recorded at cost.
- 4. All assets transferred from the Eureka Town Water and Sewer Enterprise Funds and the Crescent Valley Town Water Fund are recorded at the net book value as of July 1, 1985.
- 5. Prior to July 1, 2000, governmental funds infrastructure assets were not capitalized. These assets (back to July 1, 1980) have been valued at estimated historical cost.
- 6. The value of land owned by the County is carried at an estimated present value as of July 1, 1968. Additions to land since that date are at cost. Tax deeded property is recorded based on the total taxes owed when the property is deeded to the County.
- 7. Expenditures over \$500 are capitalized as capital assets.
- 8. Donated capital assets are valued at their estimated acquisition value on the date donated.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

| Buildings                         | 20-40 years |
|-----------------------------------|-------------|
| Improvements Other than Buildings | 10-40 years |
| Equipment and Vehicles            | 3-25 years  |
| Utility System - Well and System  | 10-40 years |
| Infrastructure                    | 20-40 years |

<u>Fund Financial Statements</u> – In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures by the governmental fund upon acquisition. Capital assets used in proprietary fund operations are not accounted for as capital outlay expenditures in the Statement of Revenues, Expenses, and Changes in Net Position - Proprietary Funds.

#### **Compensated Absences**

Certain County employees earn vacation leave and sick leave at rates dependent on length of employment and can be accumulated to a specified maximum number of days. The County pays limited accumulated sick leave to certain employees upon retirement. Accumulated costs for unused vacation pay and sick leave are recognized currently for those retiring prior to June 30, 2024. Remaining costs of unused vacation and sick leave are not recorded in the fund financial statements but are included in the government-wide financial statements. These benefits have typically been paid from the General Fund.

## **Fund Balance/Net Position**

<u>Government-wide Financial Statements</u> – The government-wide Statement of Net Position utilizes a net position presentation. Net position is categorized as net investment in capital assets, restricted and unrestricted. Net investment in capital assets includes capital assets net of depreciation and the debt outstanding that relates to the acquisition, construction, or improvement of capital assets. The County does not have any debt related to capital assets.

Restricted net position consists of unspent grants, donations, funds restricted by statute, and debt proceeds with third party restrictions for use on specific projects or programs. Unrestricted net position represents all other available financial resources of the County. Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

<u>Fund Financial Statements</u> – In the governmental fund financial statements, the following classifications of fund balance are used:

- Nonspendable Amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.
- Restricted Amounts that can be spent only for specific purposes because of constitutional provisions, enabling legislation, or because of constraints that are externally imposed by creditors, grantors, contributors, or the law or regulations of other governments.
- Committed Amounts that can only be used for specific purposes. Committed fund balance may only be
  established, rescinded, or changed pursuant to resolutions passed by the County Commissioners, the
  County's highest level of decision-making authority.
- Assigned Amounts that the County intends to use for a specific purpose, but do not meet the definitions
  of restricted or committed fund balance. Under the County's adopted policy, amounts may be assigned by
  the Budget Officer under the authorization of the Board.
- Unassigned Amounts that have not been restricted, committed, or assigned to a specific purpose within the General Fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted amounts are available, the County considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned amounts are available, the County considers amounts to have been spent first out of committed funds, then assigned funds, and finally, unassigned funds, as needed, unless the County Commissioners have provided otherwise in their commitment or assignment actions.

The County does not have a minimum fund balance policy.

#### **Pensions**

For purposes of measuring the net pension liability and pension expense, information about the fiduciary net position of the Public Employees' Retirement System of the State of Nevada (PERS) Base Plan (Base Plan) and additions to/deduction from Base Plan's fiduciary net position have been determined on the same basis as they are reported by the Base Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### **Deferred Inflows and Outflows of Resources**

In addition to assets, the Statement of Net Position/Governmental Funds Balance Sheet may report a separate section for deferred outflows of resources. This separate financial statement element represents the consumption of net assets that applies to future periods and so will not be recognized as an outflow of resources (expense) until then. The County reported deferred outflows of resources related to other postemployment benefits and pension items in the Statement of Net Position.

In addition to liabilities, the Statement of Net Position/Governmental Funds Balance Sheet may report a separate section for deferred inflows of resources. This separate statement element represents an acquisition of net assets that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The County reported deferred inflows of resources related to other postemployment benefits and pension items in the Statement of Net Position. The County reflects deferred inflows of resources which are unavailable revenue reported in the government fund balance sheet for delinquent property taxes, net proceeds and mines taxes, motor vehicle fuel taxes, ambulance charges, and opioid settlements under the modified accrual basis of accounting.

#### **Net Proceeds of Minerals**

Net proceeds of mines are paid on an annual, calendar year basis. For the year ended June 30, 2024, net proceeds of mines received on actual business from January 1, 2023 through December 31, 2023 are reflected in the financial statements. Net proceeds of mines from January through June 2024 are neither measurable nor available to meet obligations existing at June 30, 2024. Overpayments must be credited toward the payment due the next calendar year, the amount of the remaining overpayment, after being credited to any other tax or fee due from the taxpayer, may be refunded. The overall financial impact to the County of future additional amounts due or future credits is not determinable at June 30, 2024 and are not reflected in these financial statements.

#### **Risk Management**

The County is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; injuries of employees; and natural disasters, as are all entities. The County has joined together with similar public agencies (cities, counties, and special districts) throughout the State of Nevada to create a pool under the Nevada Inter-local Cooperation Act. The Nevada Public Agency Insurance Pool (POOL) is a public entity risk pool currently operating as a common risk management and insurance program for its members.

The County pays an annual premium and specific deductibles, as necessary to POOL for its general insurance coverage. POOL is considered a self-sustaining risk pool that will provide liability coverage for its members up to \$10,000,000 per event and a \$13,000,000 general aggregate per member. Property, crime, and equipment breakdown coverage is provided to its members up to \$300,000,000 per loss with various sub-limits established for earthquake, flood, equipment breakdown, and money and securities.

The County has also joined together with similar public agencies, under the Nevada Inter-local Cooperation Act, to create an intergovernmental self-insured association for workers compensation insurance, the Public Agency Compensation Trust (PACT).

The County pays premiums based on payroll costs to PACT. PACT is considered a self-sustaining pool that will provide coverage based on established statutory limits.

The County continues to carry commercial insurance for other risks of loss, including specific risks of loss not covered by POOL (airport liability, bonding, and boiler coverage) and employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

#### **Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

## Note 2 - Cash and Temporary Investments

The County Treasurer maintains cash available for use by all funds. In addition, minor amounts of cash are separately held by other County Officials. There is no restricted cash at year-end. The various bank balances are either covered by FDIC insurance or collateralized by securities held in the County's name in the Nevada State Treasurer collateral pool.

NRS 355.170 sets forth acceptable investments for Nevada local governments. The County has also adopted a formal investment policy set forth below:

<u>Interest Rate Risk</u> – Interest rate risk is the risk of possible reduction in the value of a security, especially a bond, resulting from a rise in interest rates. The County's investment policy does not limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates beyond those specified in the statute.

<u>Credit Risk</u> – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation and is a function of the credit quality ratings of its investments. The County's investment policy does not specify minimum acceptable credit ratings further than those listed in state statutes. The County is a voluntary participant in the State of Nevada Local Government Investment Pool (LGIP), an unrated external investment pool. Nevada local governments are permitted to invest in this pool pursuant to NRS 355.167. The pool has regulatory oversight from the Board of Finance for the State of Nevada. The County's investment in LGIP is equal to its original investment plus monthly allocations of interest income and realized and unrealized gains and losses, which is the same as the value of the pool shares. The County's investment in the LGIP is reported at Fair Value. More information regarding this pool, including quarterly reports, may be obtained from the Nevada State Treasurer, 101 N. Carson #4, Carson City, Nevada 89701. As of June 30, 2024, all securities, except those specifically listed, were rated AA+ or better by Standard & Poor's or AAA or better by Moody's.

<u>Concentration of Credit Risk</u> – The County places no limit on the amount the County may invest in any one issuer. The County's investments are held in U. S. Government Treasury Notes (19%), negotiable certificates of deposits (7%), Federal Home Loan Mortgage Corporate Notes (4%), Federal Farm Credit Bank Debentures (16%), Federal Agricultural Mortgage Corporation Notes (11%), Federal National Mortgage Association Notes (7%), Federal Home Loan Bank Notes (22%), corporate notes (10%), other securities (2%) and the Local Government Investment Pool (2%).

Custodial Credit Risk – For deposits, custodial credit risk is the risk that in the event of a bank failure, the County's deposits may not be returned. The County's bank deposits are covered by FDIC insurance or are collateralized by the Office of the State Treasurer/Nevada Collateral Pool. The County participates in the State of Nevada Collateral Pool which requires depositories to maintain as collateral acceptable securities having a fair market value of at least 102 percent of the amount of the uninsured balances of the public money held by the depository. Under NRS 356.360, the State Treasurer manages and monitors all collateral for all public monies deposited by members of the pool. As of June 30, 2024, all deposits were collateralized under the Nevada Pooled Collateral Program or insured by the Federal Deposit Insurance Corporation (FDIC). For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of outside parties. The County's investment policy does not further limit this exposure.

Cash and investments held at June 30, 2024 by the County are allocated to the various funds as follows:

<sup>\*</sup> Represents average weighted maturity of 82 days.

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The County does not have any investments that are measured using Level 3 inputs.

Money market mutual funds are not held primarily for the purpose of income or profit and have remaining maturities at time of purchase of one year or less. Therefore, money market mutual funds are recorded at amortized cost.

The County has the following fair value measurements as of June 30, 2024:

#### Note 4 - Landfill Closure and Post-Closure Costs

The Environmental Protection Agency has established closure and capping requirements for all municipal solid waste landfills that received waste after October 9, 1991. The EPA also established 30-year post closure care requirements for landfills that accept solid waste after October 9, 1993.

The County operates one landfill near the Town of Eureka and a transfer station in Crescent Valley. According to the Eureka County Landfill Capacity Analysis in 2022, 93% of the landfill's capacity remains, and its estimated remaining life is at least 128 years. The County purchased insurance to cover the costs of closure and post closure of the landfill. The County is obligated to make annual payments of \$33,606 to Nevada Public Agency Insurance pool for a period of fifteen years. Since all costs for closure and post closure are covered by the insurance policy as allowed by NAC 444.6855, the County recognizes costs as the insurance premiums are paid rather than recording a liability for closure and post closure costs based on the estimated percentage of capacity used to date. The estimated costs for closure and post-closure, provided by an engineering firm, are \$3,202,088 and \$359,494, respectively. This estimate is subject to change due to inflation, deflation, technology, or changes in applicable laws or regulations.

### Note 5 - Available Borrowing Capacity

The lawful County government general-obligation debt limit is established under NRS 244A.059 not to exceed ten percent of the total last assessed valuation of the taxable property of the County. The legal debt limit for unincorporated town general-obligation is established under NRS 269.425 not to exceed twenty-five percent of the last assessed valuation of the taxable property of the town.

The general-obligation debt limit and available borrowing capacity, at June 30, 2024, of the respective general County government, and unincorporated towns within Eureka County is as follows:

|                                     | Eureka General | Town of      | Town of         |  |  |

### Note 6 - Long-Term Liabilities

There is no bonded long-term debt as of June 30, 2024. Other long-term liabilities, typically paid through the General Fund and business-type activities, consisted of the following:

#### Note 7 - Defined Benefit Pension Plan

#### **Plan Description**

Eureka County contributes to the Public Employees' Retirement System of the State of Nevada (PERS). PERS administers a cost-sharing, multiple-employer, defined benefit public employees' retirement system which includes both Regular and Police/Fire members. PERS was established by the Nevada Legislature in 1947, effective July 1, 1948. PERS is administered to provide a reasonable base income to qualified employees who have been employed by a public employer and whose earnings capacities have been removed or substantially impaired by age or disability.

#### **Benefits Provided**

Benefits, as required by the Nevada Revised Statutes (NRS or statute), are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months with special provisions for members entering PERS on or after January 1, 2010 and July 1, 2015. Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits.

Monthly benefit allowances for members are computed at 2.5% of average compensation for each accredited year of service prior to July 1, 2001. For service earned on and after July 1, 2001, this multiplier is 2.67% of average compensation. For members entering PERS on or after January 1, 2010, there is a 2.50% service time factor. Regular members entering PERS on or after July 1, 2015, there is a 2.25% multiplier for all years of service. PERS offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death.

Post-retirement increases are provided by authority of NRS 286.575 - .579.

#### Vesting

Regular members entering PERS prior to January 1, 2010 are eligible for retirement at age 65 with five years of service, at age 60 with ten years of service, or at any age with 30 years of service. Regular members entering PERS on or after January 1, 2010, are eligible for retirement at age 65 with five years of service, at age 62 with ten years of service, or any age with 30 years of service. Regular members entering PERS on or after July 1, 2015, are eligible for retirement at age 65 with five years of service, at age 62 with ten years of service, or at age 55 with 30 years of service, or any age with 33 1/3 years of service.

Police/Fire members entering PERS prior to January 1, 2010 are eligible for retirement at age 65 with five years of service, at age 55 with ten years of service, at age 50 with 20 years of service, or at any age with 25 years of service. Police/Fire members entering PERS on or after January 1, 2010, are eligible for retirement at 65 with five years of service, or age 60 with ten years of service, and at age 50 with 20 years of service. Police/Fire members entering PERS on or after July 1, 2015, are eligible for retirement at age 65 with five years of service, at age 60 with ten years of service, and at age 50 with 20 years of service. Only service performed in a position as a police officer or firefighter may be counted towards eligibility for retirement as Police/Fire accredited service.

The normal ceiling limitation on monthly benefits allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Both Regular and Police/Fire members become fully vested as to benefits upon completion of five years of service.

#### **Contributions**

The authority for establishing and amending the obligation to make contributions and member contribution rates, is set by statute. New hires, in agencies which did not elect the Employer-Pay Contribution (EPC) plan prior to July 1, 1983, have the option of selecting one of two contribution plans. One plan provides for matching employee and employer contributions, while the other plan provides for employer-pay contributions only. Under the matching Employee/Employer Contribution plan a member may, upon termination of service for which contribution is required, withdraw employee contributions which have been credited to their account. All membership rights and active service credit in the System are canceled upon withdrawal of contributions from the member's account. IF EPC was selected, the member cannot covert to the Employee/Employer contribution plan.

PERS' basic funding policy provides for periodic contributions at a level pattern of cost as a percentage of salary throughout an employee's working lifetime in order to accumulate sufficient assets to pay benefits when due.

PERS receives an actuarial valuation on an annual basis indicating the contribution rates required to fund PERS on an actuarial reserve basis. Contributions actually made are in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450.

The actuary funding method used is the Entry Age Actuarial Cost Method. It is intended to meet the funding objective and result in a relatively level long-term contributions requirement as a percentage of salary.

For the fiscal year ended June 30, 2023, the statutory Employer/Employee matching rate for Regular members was 15.50%, and 22.75% for Police/Fire. For the fiscal year ended June 30, 2023 the Employer-Pay Contribution (EPC) rate was 29.75% for Regular members, 44.00% for Police/Fire, and 31% for volunteer fire members. For the fiscal year ended June 30, 2024, the statutory Employer/Employee matching rate for Regular members was 17.50% and 25.75% for Police/Fire. For the fiscal year ended June 30, 2024 the Employer-Pay Contribution (EPC) rate was 33.5% for Regular members, 50.00% for Police/Fire, and 35% for volunteer fire members.

Eureka County's contributions were \$1,232,156 for the year ended June 30, 2024.

#### **PERS Investment Policy**

PERS' policies which determine the investment portfolio target asset allocation are established by the PERS Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of the System.

The following was the PERS Board adopted policy target asset allocation as of June 30, 2023:

| Asset Class          | Target Allocation | Long-Term Geometric<br>Expected Rate of Real Return |
|----------------------|-------------------|---|
| U.S. stocks          | 42%               | 5.50%   |
| International Equity | 18%               | 5.50%   |
| U.S. bonds           | 28%               | 0.75%   |
| Private Markets      | 12%               | 6.65%   |

As of June 30, 2023, PERS' long-term inflation assumption was 2.50%.

### **Net Pension Liability**

At June 30, 2024, the County reported a liability of \$15,694,995 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's proportion of the net pension liability was based on the County's share of contributions in the PERS pension plan relative to the total contributions of all participating PERS employers. At June 30, 2023, the County's proportion was 0.08599 percent, which is a decrease of 0.0031 percent from its proportion measured as of June 30, 2022 of 0.08289 percent.

#### **Pension Liability Discount Rate Sensitivity**

The following presents the net pension liability of the County as of June 30, 2024, calculated using the discount rate of 7.25%, as well as what the County's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25%) or 1-percentage-point higher (8.25%) than the current discount rate:

|   | 1% Decrease in Discount Rate (6.25%) | Discount Rate<br>(7.25%) |    | % Increase in<br>Discount Rate<br>(8.25%) |
|---|--------------------------------------|--------------------------|----|---|
| County's Proportionate Share of Net Pension Liability | \$ 24,423,717                        | \$ 15,694,995            | \$ | 8,491,237                                 |

#### **Pension Plan Fiduciary Net Position**

Detailed information about the pension plan's fiduciary net position is available in the PERS Annual Comprehensive Financial Report, available on the PERS website.

#### **Actuarial Assumptions**

The County's net pension liability was measured as of June 30, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation Rate 2.50% Payroll Growth 3.50%

Investment Rate of Return/

Discount Rate 7.25% Productivity Pay Increase 0.50%

Projected Salary Increases Regular: 4.20% to 9.10%, depending on service

Police/Fire: 4.60% to 14.50%, depending on service Rates include inflation and productivity increases

Consumer Price Index 2.50%

Other Assumptions Same as those used in the June 30, 2023 funding actuarial valuation

Mortality rates for healthy regular members and contingent beneficiaries were based on Pub-2010 General Healthy Retiree Amount-Weighted Above-Median Mortality Table with rates increased by 30% for males and 15% for females. For ages before age 40, mortality rates are based on Pub-2010 General Employee Amount-Weighted Above-Median Mortality Tables. For ages 40 through 50, the rates were smoothed between the above tables. Mortality rates for heathy police/fire members were based on Pub-2010 Safety Healthy Retiree Amount-Weighted Above-Median Mortality Table with rates increased by 30% for males and 5% for females. For ages before age 35, mortality rates are based on Pub-2010 Safety Employee Amount-Weighted Above-Median Mortality Table. For ages 35 through 45, the rates were smoothed between the above tables.

Mortality rates for disabled regular members were based on Pub-2010 Non-Safety Disabled Retiree Amount-Weighted Mortality Table with rates increased by 20% for males and 15% for females. Mortality rates for disabled police/fire members were based on Pub-2010 Safety Disabled Retiree Amount-Weighted Mortality Table with rates increased by 30% for males and 10% for females. Mortality rates for current beneficiaries were based on Pub-2010 Contingent Survivor Amount-Weighted Above-Median Mortality Table with rates increased by 15% for males and 30% for females. For ages before age 35, mortality rates are based on Pub-2010 General Employee Amount-Weighted Above-Median Mortality Table. For ages 35 through 45, the rates were smoothed between the above tables.

Mortality rates for pre-retirement regular members were based on Pub-2010 General Employee Amount-Weighted Above-Median Mortality Table. Morality rates for pre-retirement police/fire members were based on Pub-2010 Safety Employee Amount-Weighted Above-Median Mortality Table.

The mortality tables were projected generationally with the two-dimensional mortality improvement scale MP-2020.

Actuarial assumptions used in the June 30, 2023 valuation were based on the results of the experience study for the period July 1, 2016 through June 30, 2020.

The discount rate used to measure the total pension liability was 7.25% as of June 30, 2023. The projection of cash flows used to determine the discount rate assumed that plan contributions will be made in the amounts consistent with statutory provisions and recognizing the plan's current funding policy and cost-sharing mechanism between employers and members. For this purpose, all contributions that are intended to fund benefits for all plan members and their beneficiaries are included, except the projected contributions that are intended to fund the service costs for future plan members and their beneficiaries are not included.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2023.

### Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2024, the County recognized pension expense of \$2,205,438. At June 30, 2024, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|   | <br>rred Outflows<br>Resources    | <br>Deferred Inflows of Resources |  |  |
|---|-----------------------------------|-----------------------------------|--|--|

The \$1,232,156 reported as deferred outflows of resources related to pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2025.

The average of the expected remaining service lives of all employees that are provided with pensions through PERS (active and inactive employees) determined is 5.63 years.

Other estimated amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions, excluding contributions subsequent to the measurement date, will be recognized in pension expense as follows:

| Year Ending June 30,                               |   |

Additional Information - Additional information supporting the Schedule of Employer Allocations and the Schedule of Pension Amounts by Employer is located in the PERS Annual Comprehensive Financial Report (ACFR) available on the PERS website at www.nvpers.org under Quick Links – Publications.

The County updated their allocation assumptions between the governmental activities and the business-type activities in the current year to better reflect the change in the net pension liability.

### Note 8 - Postemployment Healthcare Plans

The County provides other postemployment benefits (OPEB) for eligible retired employees through either participation in the County's health insurance program or the Nevada Public Employees' benefits Plan (PEBP) under NRS 287.023.

#### **Plan Descriptions**

The County's defined benefit OPEB plan, Eureka County Employee Health Benefits Plan (ECHBP), provides OPEB for all eligible employees on retirement from the County. Additionally, the County contributes to the defined OPEB plan, Public Employees' Benefits Plan (PEBP). Each plan provides medical, dental, vision, and life insurance benefits to eligible retired County employees and beneficiaries.

ECHBP is a single employer defined benefit OPEB plan administered by the County. In accordance with Nevada Revised Statue 287.010, the ECHBP was adopted to provide postemployment benefits to full-time employees on retirement. Eligibility requirements, benefit levels, employee contributions, and employer contributions are governed by the County and can only be amended by the County. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75; no separate financial reports are issued.

PEBP is a single employer defined benefit OPEB plan administered by a nine-member governing board. Nevada Revised Statute 287.023 allows certain retired employees of governmental entities with the State of Nevada to join the State's Public Employee Benefits Program. Nevada Revised Statute 287.023 sunsetted the option to join PEBP for County employees who retired from the County after September 1, 2008. Eligibility and subsidy requirements are governed by statutes of the State of Nevada and can only be amended through legislation. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75; no separate financial reports are issued.

#### **Benefits Provided**

ECHBP provided healthcare and life insurance benefits for retirees and their dependents. Employees retiring from the County under PERS are allowed to continue participation in the County's group health insurance program (medical, dental, vision and life insurance). Employees retiring from the County under PERS who were hired prior to July 1, 2009 with a minimum of five years of service receive subsidized premiums from the County based on the years of service, as noted below. Retirees are responsible for payment of unsubsidized premiums. Retirees who retired prior to July 1, 2004 receive a minimum subsidy of \$150, but those with at least seven years of service follow the chart below. During the year ended June 30, 2008, the plan was modified for those employees hired after July 1, 2009. Consequently, no employees hired after July 1, 2009 will be eligible to receive subsidized premium payments.

| Length<br>of Service | Percentage of Full Subsidy | <br>aximum<br>:hly Benefit | Length<br>of Service | Percentage of Full Subsidy | <br>aximum<br>:hly Benefit |

PEBP provides medical, prescription, vision, life and accident insurance, and dental for retirees. Retirees can choose between a self-funded preferred provider organization (PPO) and a health maintenance organization (HMO) plan. Retirees are responsible for payment of unsubsidized premiums. The County is required to provide a subsidy for their retirees who have elected to join PEBP. Contribution requirements for plan members and the participating employers are assessed by the PEBP Board annually. The contributions required for PEBP subsidies depends on the date of retirement and years of PERS service former employees earned in total and while working for the County. The subsidy ranges from a minimum of \$3 to a maximum of \$670 per month. Subsidies for retiree premiums participating in the PEBP are paid directly to the State when due. The County's obligation for subsidies is limited to payment of the statutorily required contribution. The statutes were revised with an effective date of November 30, 2008, to create new participation limitations so that only active members of PEBP can elect coverage after retirement. Based on the statute revision, former County employees and retirees must have retired and joined PEBP by September 1, 2008 to elect PEBP membership. Consequently, no employees retiring from the County on or after September 1, 2008 will be eligible to participate in the PEBP plan as a retiree at the County's expense.

#### **Employees Covered by Benefit Terms**

At June 30, 2022, the following employees were covered by the benefit terms:

|   | ECHBP | PEBP | Total |
|---|-------|------|-------|
| Inactive employees or beneficiaries currently |       |      |       |
| receiving benefits                            | 31    | 13   | 44    |

### **Total OPEB Liability**

The County's total OPEB liability of \$6,401,667 was measured as of June 30, 2023 and was determined by an actuarial valuation as of June 30, 2022.

|                      | ECHBP PEBP |           |    | PEBP    | Total |    |           |

#### **Assumptions and Other Inputs**

The total OPEB liability in the June 30, 2022 actuarial valuation was determined using the following actuarial assumptions and other inputs for ECHBP and PEBP, applied to all periods included in the measurement, unless otherwise specified:

|  | ЕСНВР  | PEBP  |
|--|--|---|
| Actuarial cost method<br>General inflation<br>Assumed wage inflation<br>Discount rate *<br>Health care trend rates * | Entry age normal<br>2.50%<br>3.00%<br>4.13%<br>5.60% for 2024<br>decreasing to<br>3.9% by 2076 | Entry age normal 2.50% N/A 4.13% Pre-Medicare: 5.80% in 2024 decreasing to 3.9% by 2076 Post-Medicare: 4.5% |

<sup>\*</sup>Percentages as of the measurement date

The discount rate for ECHBP and PEBP was based on the Standard & Poor's Municipal Bond 20 Year High Grade Index.

For the ECHBP and PEBP Plans, mortality rates for non-disabled employees and future survivors were based on Pub-2010 General Healthy Retiree Amount-Weighted Above-Median Mortality Table with rates increased by 30% for males and 15% for females. Mortality rates for current surviving spouses were based on Pub-2010 Contingent Survivor Amount-Weighted Above-Medium Mortality Table with rates increased by 15% for males and 30% for females. Pre-retirement life rates were based on Pub-2010 General Employee Amount-Weighted Above-Median Mortality Table. Mortality improvements were based by applying MacLeod Watts Scale 2022 applied generationally from 2010, based on data from the Society of Actuaries Mortality Improvement Scale MP-2021 Report and the demographic assumptions used in the 2021 Annual Report of the Board of Trustees of the Federal Old-Age and Survivors Insurance and Federal Disability Insurance Trust Funds.

#### Changes in Assumptions – the ECHBP and PEPB Plans Reflect the Following Changes in Assumptions:

- The discount rate changed from 2.18% as of June 30, 2021 to 4.09% as of June 30, 2022 and from 4.09% as of June 30, 2022 to 4.13% as of June 30, 2023, based on the published change in return for the applicable municipal bond index.
- Assumed rates of mortality, termination, disability, and retirement were updated from those provided in the 2017 experience study to those provided in the 2021 experience study of the Public Employees' Retirement System of the State of Nevada. The mortality improvement scale was updated from MacLeod Watts Scale 2020 to MacLeod Watts Scale 2022.
- Healthcare costs trends were updated to the Getzen Model 2022\_b published by the Society of Actuaries.
- The participation rate was corrected for projecting eligibility of the subsidy to the new years of service requirement from 10 to 20 for those retiring at age 60 and older for the ECHBP.

### Note 9 - Commitments and Contingencies

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the County expects such amounts, if any, to be immaterial.

On April 16, 2024 the Commission awarded a bid not to exceed \$5,905,451 for the Phase 2 Road and Utility Improvement Project as well as engineering and construction services totaling \$746,800. On June 4, 2024 an additional change order was approved totaling \$2,440,171. No funds were spent as of June 30, 2024.

On May 21, 2024 the Commission awarded a bid not to exceed \$504,000 for the Kobeh Well and Transmission Main Project Schematic Design. No funds were spent as of June 30, 2024.

#### Note 10 - Tax Abatements

The County entered into an abatement, through the Nevada Governor's Office of Economic Development, in accordance with NRS that allows for partial abatement of qualifying renewable energy properties. Property tax abatements on certified eligible properties are equal to 55% of the taxes payable on real and personal property. In addition, 45% of the taxes after abatement must be distributed to the Nevada State Renewable Energy Fund.

For the year June 30, 2024, the County abated property taxes totaling \$131,609.

### Note 11 - Ad Valorem Capital Projects

Pursuant to NRS 354.598155, the County is required to provide the expenditures for revenue received under this statute. The County spent monies in the current fiscal year for public safety radio repeater upgrades, water well rehabilitation and upgrades, and computer/technology upgrades.

#### Note 12 - Interfund Transfers

Major fundo

The General Fund transferred \$15,000,000 to various funds during the year to fund various capital projects as follows:

| wajor runus                  |                  |

|                              |                  |

#### Note 13 - Opioid Settlement

The State of Nevada along with other states settled claims that certain prescription drug companies and pharmaceutical distributors engaged in misleading and fraudulent conduct in the marketing and sale of opioids and failed to monitor for, detect and prevent diversion of the drugs. The County also settled the same claims and related claims. Due to its settlement of these claims, the County will receive payments from the Defendant companies, through the State of Nevada, over the next twenty years. The County is required to use these funds for activities to remediate the opioid crisis and treat or mitigate opioid use disorder and related disorders through prevention, harm reduction, treatment, and recovery services. The amount reported in the General Fund, not scheduled to be collected within one year is \$456,229.

### Note 14 - Fund Balances

In accordance with GASB Statement 54, "Fund Balance Reporting and Governmental Fund Type Definitions" (codification paragraph 1800.165 to .187) the County has restricted fund balance for the following purposes as of June 30, 2024:

#### Note 1 - Budgetary Reconciliations

The accompanying Reconciliation of the General Fund (Budgetary Basis) to the General Fund (GAAP Basis) presents balances combined for external reporting purposes.

Budget to actual comparisons are presented for all funds of the County, except for custodial funds, as required by Nevada Revised Statutes. Such budget comparisons are required to be presented using the budget as adopted and approved by the State of Nevada Department of Taxation. Budgets are prepared on the modified accrual basis of accounting for all funds except enterprise funds and custodial funds, which are prepared using the full accrual basis of accounting. Thus, the budgetary basis follows generally accepted accounting principles for all funds.

The Future Reserve Fund and the Retiree Health Insurance Fund are combined with the General Fund for external reporting purposes.

#### Note 2 - Budgets and Budgetary Accounting

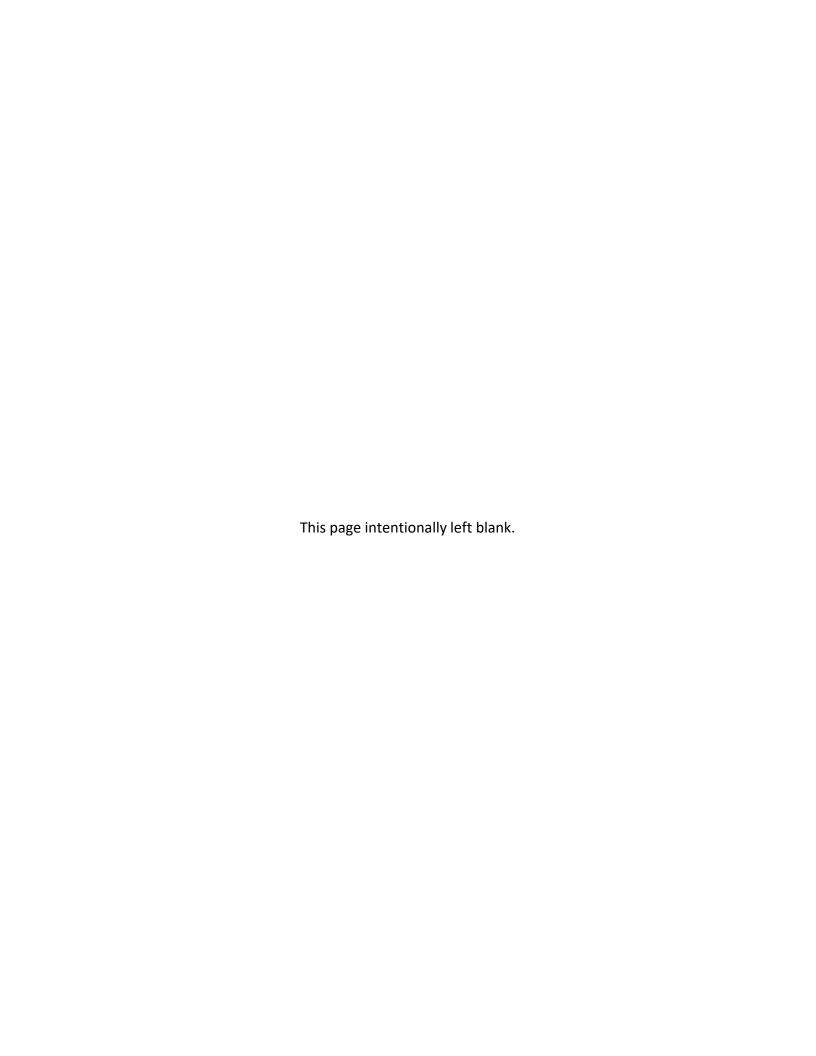

Eureka County adheres to the Local Government Budget and Finance Act incorporated in Section 354 of the Nevada Revised Statutes. The County is required to legally adopt budgets for all funds except fiduciary funds. The budgets are filed as a matter of public record with the Clerk of the Board of Commissioners of Eureka County and State Department of Taxation. The County staff uses the following procedures to establish, modify and control the budgetary information that is reflected in these financial statements.

- 1. On or before April 15, the Eureka County Board of Commissioners file a tentative budget with the Nevada Department of Taxation for all funds for the fiscal year beginning the following July 1. The tentative budget is prepared by fund, function and department and includes proposed expenditures and the means of financing them.
- 2. Public budget hearings on the tentative budget are held in May to obtain taxpayer comments.
- 3. Prior to June 1, the Board indicates changes, if any, to be made to the tentative budget and adopts a final budget by a majority vote of the Commissioners. The final budget must then be forwarded to the Nevada Department of Taxation for final approval. The above dates may be adjusted as necessary during legislative years.
- 4. Formal budgetary integration in the financial records of all funds is employed to enhance management control during the year, however encumbrance accounting is not utilized. All appropriations lapse at the end of the fiscal year.
- 5. The appropriated budget amounts may be transferred between functions, funds, or contingency accounts if the transfer does not increase the total appropriations for fiscal year amounts subject to advisement of the Commissioners at the next subsequent meeting and must be recorded in the minutes of the meeting. Budget augmentations and amendments in excess of original budgetary amounts require prior approval of the Eureka Board of County Commissioners, following a scheduled and noticed public hearing.

- 6. Budgets for all funds are adopted on a basis consistent with accounting principles generally accepted in the United States of America (GAAP). Budgeted amounts reflect budget amendments made during the year in accordance with the above procedures.
- 7. In accordance with state statute, actual expenditures may not exceed budgetary appropriations of the various functions of the individual governmental funds, except for bond repayments, short-term financing repayment and any other long-term contract expressly authorized by law, and certain other items specified in NRS 354.626. For Proprietary Funds, expenses in excess of original budget appropriations are allowable as long as the expenses do not cause a deficit in net position and the budget is adjusted in a manner provided by law.

#### Note 3 - Comparative Data

Comparative data shown in the supplementary information sections for the prior year has been extracted from the 2022-2023 financial statements and reclassified where necessary and practical to afford better comparability between the years. It has been provided to add comparability but is not considered full disclosure of transactions for 2022-2023. Such information can only be obtained by referring to the audited financial statements for that year.

# Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Honorable Board of Commissioners Eureka County, State of Nevada Eureka, Nevada

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Eureka County, State of Nevada (the County), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated December 12, 2024.

#### **Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We identified a certain deficiency in internal control, described in the accompanying Schedule of Findings and Questioned Costs as item 2024-001 that we consider to be a material weakness.

#### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Eureka County's Response to Findings**

Government Auditing Standards requires the auditor to perform limited procedures on the County's response to the findings identified in our audit and described in the accompanying Schedule of Findings and Questioned Costs. The County's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# Independent Auditor's Report on Compliance for Each Major Federal Program and Report on Internal Control Over Compliance Required by the Uniform Guidance

To the Honorable Board of Commissioners Eureka County, State of Nevada Eureka, Nevada

#### **Report on Compliance for Each Major Program**

#### **Opinion on Each Major Federal Program**

We have audited Eureka County, State of Nevada's (the County) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended June 30, 2024. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Eureka County complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

#### Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the County's compliance with the compliance requirements referred to above.

#### Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the County's federal programs.

#### Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the County's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the County's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design
  and perform audit procedures responsive to those risks. Such procedures include examining, on a
  test basis, evidence regarding the County's compliance with the compliance requirements
  referred to above and performing such other procedures as we considered necessary in the
  circumstances.
- Obtain an understanding of the County's internal control over compliance relevant to the audit in
  order to design audit procedures that are appropriate in the circumstances and to test and report
  on internal control over compliance in accordance with the Uniform Guidance, but not for the
  purpose of expressing an opinion on the effectiveness of the County's internal control over
  compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

#### **Report on Internal Control over Compliance**

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

#### **Auditor's Comments**

To the Honorable Board of Commissioners Eureka County, State of Nevada Eureka, Nevada

In connection with our audit of the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Eureka County, State of Nevada (the County) as of and for the year ended June 30, 2024, and the related notes to the financial statements, nothing came to our attention that caused us to believe that the County failed to comply with the specific requirements of Nevada Revised Statutes other than those cited below. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures other matters may have come to our attention regarding the County's noncompliance with the requirements of Nevada Revised Statutes cited below, insofar as they relate to accounting matters.

#### **Current Year Statute Compliance**

The County conformed to all significant statutory constraints on its financial administration during the year.

#### **Progress on Prior Year Statute Compliance**

The County conformed to all significant statutory constraints on its financial administration in the prior year.

#### **Disposition of Prior Year Recommendations**

Finding 2023-001 was reported in the current year as Finding 2024-001.

#### **Current Year Audit Recommendations**

#### Note 1 - Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Eureka County under programs of the federal government for the year ended June 30, 2024. The information is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of Eureka County, it is not intended to and does not present the financial position, changes in financial position, changes in net position/fund balance or cash flows of Eureka County.

#### Note 2 - Summary of Significant Accounting Policies

Expenditures reported in the schedule are reported on the modified accrual basis of accounting. When applicable, such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. No federal financial assistance has been provided to a subrecipient.

#### Note 3 - Indirect Cost Rate

The Eureka County has not elected to use the 10% de minimis cost rate.

#### Note 4 - Food Donation

Nonmonetary assistance is reported in this schedule at the fair market value of the commodities received and disbursed.

#### Section II - Financial Statement Findings

2024-001: Report Preparation Material Weakness

Criteria:

Management of Eureka County, State of Nevada (the County) is responsible for establishing and maintaining an effective system of internal control over financial reporting. One of the key components of an effective system of internal control is a finance staff with adequate resources available to prepare the financial statements in accordance with generally accepted accounting principles and to be capable of maintaining accounting records that do not require adjustments as part of the audit process.

Condition:

The County staff does not prepare financial statements in accordance with generally accepted accounting principles. Therefore, Eide Bailly LLP prepared the County's audited financial statements including related note disclosures. In addition, based on our audit procedures performed at June 30, 2024, we proposed the following audit adjustments to properly state various account balances in order to fairly present the financial statements in accordance with generally accepted accounting principles (GAAP):

• \$1,753,687 reduction in depreciation expense and accumulated depreciation due to an incorrect life associated with an asset in the government-wide governmental activities.

In addition, during our audit procedures we noted immaterial differences within the allocation of real property tax revenue amongst the funds. This appears to be an issue with the tax rate changes within the funds and the application of the abatement to the various funds.

Effect:

The County's internally prepared annual financial statements submitted to the Commission prior to the audit do not contain all the information required by GAAP and could include material audit adjustments.

Cause:

The County did not have adequate controls in place to ensure appropriate recording of transactions in accordance with GAAP. Given the daily responsibilities of management, the resources of time and training necessary to prepare the County's financial statements in accordance with GAAP are not available. As a result, the County has chosen to contract with Eide Bailly LLP to prepare the financial statements. This circumstance is not unusual in an organization of this size, due to time constraints of management and costs associated with compliance of the standards.

Recommendation: Management should perform a detailed review of all financial statements and

fund trial balances throughout the year to ensure that all significant transactions have been appropriately reported. Management should review the allocation of property taxes amongst the funds each year. In addition, management and those charged with governance should annually make the decision to accept the

degree of risk associated with this condition because of costs or other

considerations.

Views of Responsible Officials: We agree with the finding and the County believes the most cost-effective

approach is to outsource the financial preparation function to the external auditors. In addition, lives placed on capital assets will be reviewed for reasonableness and management will work with the software provider for

property taxes to ensure the allocation is appropriate.

#### Section III – Federal Award Findings and Questioned Costs

No federal award findings were reported for the year ended June 30, 2024.

### **Independent Auditor's Report**

To the Honorable Board of Directors Eureka County Television District, State of Nevada Eureka, Nevada

### **Report on the Audit of the Financial Statements**

### **Opinions**

We have audited the financial statements of the governmental activities and each major fund of the Eureka County Television District, State of Nevada (the "District"), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Eureka County Television District, as of June 30, 2024, and the respective changes in financial position, and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing an
  opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is
  expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

We have applied certain limited procedures to the Management's Discussion and Analysis in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated December 12, 2024, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

As management of the Eureka County Television District, State of Nevada, we offer readers of the Eureka County Television District's financial statements this narrative overview and analysis of the financial activities of the Eureka County Television District for the fiscal year ended June 30, 2024.

### **FINANCIAL HIGHLIGHTS**

- The assets of the Eureka County Television District's governmental activities exceeded its liabilities at June 30, 2024 by \$1,338,371 (net position). Of this amount \$822,498 (unrestricted) may be used to meet the government's ongoing obligations to citizens and creditors.
- At June 30, 2024, the total fund balance for the General Fund was \$822,328.
- Eureka County Television District at June 30, 2024 had no bonded debt.

### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to Eureka County Television District's basic financial statements. Eureka County Television District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

### **Government-wide financial statements**

The *government-wide financial statements* are designed to provide readers with a broad overview of Eureka County Television District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of Eureka County Television District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Eureka County Television District is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements distinguish functions of Eureka County Television District that are principally supported by taxes and intergovernmental revenues (*governmental activities*). The governmental activities of Eureka County Television District include the general government function.

The government-wide financial statements can be found on pages 9-10 of this report.

### **Fund financial statements**

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Eureka County Television District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Eureka County Television District has one fund, which is the General Fund.

### **Governmental funds**

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of expendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

Eureka County Television District adopts an annual appropriated budget for its General Fund. A budgetary comparison schedule has been provided to demonstrate compliance with this budget.

The basic governmental fund financial statements and reconciliations can be found on pages 11-16 of this report.

### Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 17-25 of this report.

### **Government-wide Financial Analysis**

As noted earlier, Eureka County Television District's net position may serve over time as a useful indicator of a government's financial position. In the case of Eureka County Television District, assets exceeded liabilities by \$1,338,371 at the close of the most recent fiscal year.

A large portion of Eureka County Television District's net position reflects its investment in capital assets (e.g., improvements, buildings, machinery, and equipment). There is no outstanding related debt used to acquire those assets. Eureka County Television District uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending.

The following table provides a comparative summary of Eureka County Television District's net position:

### **Eureka County Television District's Net Position**

|  | 2024                  | 2023                  |

Eureka County Television District's *unrestricted net position* of \$822,498 may be used to meet the government's ongoing obligation to citizens and creditors.

The District no longer has any benefitted employees and is therefore no longer subject to a net pension liability, deferred outflow of resources or deferred inflow of resources related to pensions. The salaries for the District are a stipend for the Board members.

At the end of the current fiscal year, Eureka County Television District was able to report positive balances in all categories of net position. The same situation held true for the prior fiscal year.

### **Governmental activities**

Governmental activities increased Eureka County Television District's net position by \$15,330. Overall District revenues increased \$22,153 during fiscal year 2024 compared to fiscal year 2023. This was mainly a result of an increase in investment earnings, refunds, interest and rent space on the mountain top repeater sites.

The following table provides a comparative summary of Eureka County Television District's changes in net position:

### **Financial Analysis of the Government's Funds**

### **Major Governmental Fund Balance Changes**

The Eureka County Television District General Fund ending fund balance increased to \$822,328 in fiscal year 2024 compared to \$763,686 at the end of fiscal year 2023. This is mainly due to a decrease in capital outlay.

### **Budgetary Highlights - Fiscal Year Ended June 30, 2024**

The budget statements reflect a comparison of budgeted revenues and expenditures to actual for the year ended June 30, 2024. The budget statements were prepared from the final budget as filed with the Nevada Department of Taxation.

### Significant Budgetary Variances Between the Final Budget and Actual Results

### **General Fund**

### Revenues

In the General Fund, there was an increase in revenues overall. Revenues were greater than budgeted by \$48,823. The General Fund revenues were \$260,156 and the budgeted total was \$211,333. The increase can mainly be attributed to increased rents, interest earnings and a decreased loss on investments. Rents were \$18,270 more than budgeted, interest earnings were \$12,825 more than budgeted, and the net increase in fair value of investments were \$12,231 more than budgeted.

### **Expenditures and Fund Balance**

Actual expenditures were \$201,514, which was \$114,511 less than the budget appropriations for the year. Overall, the total ending fund balance was \$822,328, which is \$196,681 more than budgeted.

### **Capital Assets**

Eureka County Television District's investment in capital assets for its governmental activities as of June 30, 2024 amounts to \$515,873 (net of accumulated depreciation). This investment in capital assets includes buildings, improvements, machinery and equipment. Eureka County Television District's net change in investment in capital assets for fiscal year 2024 was decreased by \$42,884. Current year major additions included \$26,110 in camera installation.

Additional information regarding capital assets can be found at Note 3 on page 24.

Economic Factors and Next Year's Budgets and Rates

- The tax rate assessed will not change in fiscal year 2025 for the District. Revenues and expenditures are expected to be consistent with fiscal year 2024.
- Projects budgeted for the District in fiscal year 2025 include a camera system at Tank Hill.
- The unemployment rate for Eureka County as of June 30, 2024 was 6.89 percent, which is a higher rate from one year ago. The State of Nevada average unemployment rate of 5.2 percent exceeds the national average rate of 4.1 percent.
- Inflationary trends in the region compare favorably to national indices.

All of these factors were considered in preparing Eureka County Television District's budget for the 2025 fiscal year.

Eureka County Television District has appropriated \$252,725 for General Fund spending in the 2025 fiscal year budget.

### Note 1 - Summary of Significant Accounting Policies

Eureka County Television District, State of Nevada, (the "District") is a local government created and operated under the provisions of Nevada Revised Statutes (NRS) Chapter 318. The District is governed by an elected Board of five members who possess final decision-making authority and is held primarily accountable for those decisions. The District is responsible for establishing spending limitations, funding any deficits and borrowing funds and/or issuing bonds to finance county system operations and construction. Eureka County provides assistance with day-to-day operations, budget preparation and accounting functions of the District. The Eureka County Commission must also approve and sign the tentative and final budgets along with the District Board of Directors.

The accounting policies of the District conform to accounting principles generally accepted in the United States of America as applicable to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing these accounting and financial principles.

The accounting and reporting framework and the more significant accounting policies are as follows:

### **Reporting Entity**

The financial statements included herein present the District. The District has no component units and is a discretely presented component unit of Eureka County.

The Eureka County Television District is a special district providing television broadcast services to Eureka County television citizens.

### **Government-Wide and Fund Financial Statements**

The basic financial statements consist of government-wide statements and the fund financial statements. The government-wide financial statements include a statement of net position and a statement of activities.

The statement of net position presents the financial position of the District at year-end. The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to patrons who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and revenues not properly included among program revenues are reported instead as general revenues. Those programs or functions with a net cost not supported by program revenues are generally dependent on general-purposes revenues, such as taxes, to remain operational. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

### Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Grant revenues are reflected as unearned revenue if funds have been received prior to meeting such requirements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Gross receipts and sales taxes are considered "measurable" when in the hands of intermediary collecting agents or governments. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days after the end of the current fiscal period. Anticipated refunds of taxes are recorded as liabilities and reductions of revenue when they are measurable, and the payment seems certain. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to employment benefits, and claims and judgments, are recorded only when payment is due.

Property taxes and interest associated with the current fiscal period are all considered to be susceptible to accrual, and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the District.

The major revenue sources of the District include tax revenues, ad valorem (property) taxes, consolidated tax (sales tax), rents, and interest income. Ad valorem taxes are reflected as deferred inflows of resources in the individual funds if they are not available to finance the activities of the current period.

The District's financial records are organized on the basis of funds, which are independent fiscal and accounting entities with a separate set of self-balancing accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions.

The District reports the following major governmental funds:

• General Fund – The general fund is the general operating fund of the District. It is used to account for all financial resources and costs of operations traditionally associated with the District, which are not required to be accounted for in another fund.

### **Budgets and Budgetary Accounting**

Eureka County Television District adheres to the Local Government Budget and Finance Act incorporated in Section 354 of the Nevada Revised Statutes. The District is required to legally adopt budgets for all funds except fiduciary funds. The budgets are filed as a matter of public record with the Clerk of the Board of Eureka County and State Department of Taxation. The District staff uses the following procedures to establish, modify and control the budgetary information that is reflected in these financial statements.

- 1. On or before April 15, the Eureka County Commission and the District Board file a tentative budget with the Nevada Department of Taxation for all funds for the fiscal year beginning the following July 1. The tentative budget is prepared by fund, function and department and includes proposed expenditures and the means of financing them.
- 2. Public budget hearings on the tentative budget are held in May to obtain taxpayer comments.
- 3. Prior to June 1, the Board/Commission indicates changes, if any, to be made to the tentative budget and adopts a final budget by a majority vote of the Board/Commissioners. The final budget must then be forwarded to the Nevada Department of Taxation for final approval. The above dates may be adjusted as necessary during legislative years.
- 4. Formal budgetary integration in the financial records of all funds is employed to enhance management control during the year, however encumbrance accounting is not utilized. All appropriations lapse at the end of the fiscal year.
- 5. The appropriated budget amounts may be transferred between functions, funds, or contingency accounts if the transfer does not increase the total appropriations for fiscal year amounts subject to advisement of the Board of Directors at the next subsequent meeting and must be recorded in the minutes of the meeting. Budget augmentations and amendments in excess of original budgetary amounts require prior approval of the Eureka County Commission and the District Board of Directors, following a scheduled and noticed public hearing.
- 6. Budgets for all funds are adopted on a basis consistent with accounting principles generally accepted in the United States of America (GAAP). Budgeted amounts reflect budget amendments made during the year in accordance with the above procedures.
- 7. In accordance with state statute, actual expenditures may not exceed budgetary appropriations of the various functions of the individual governmental funds, except for bond repayments, short-term financing repayment and any other long-term contract expressly authorized by law, and certain other items specified in NRS 354.626.

### **Property Taxes**

All real property in Eureka County, which the District is located in, is assigned a parcel number in accordance with state law, with each parcel being subject to physical reappraisal every five years. A factoring system is used to adjust the appraised value during the years between physical appraisals. The assessed valuation of the property and its improvements is assessed at 35% of "taxable value" as defined by statute. The amount of tax levied is determined by multiplying the assessed value by the tax rate applicable to the area in which the property is located. In 2005, the Nevada State Legislature passed Assembly Bill 489 which provides for a partial abatement of the property tax levied on qualified property. For qualified property, the abatement may limit the increase of property taxes based on the previous year's assessed value.

The maximum tax rate was established in the State Constitution at \$5.00 per hundred dollars of assessed valuation; however, as a result of the 1979 legislative session, the tax rate was further limited to \$3.64 per hundred dollars of assessed valuation unless the electorate approves an additional rate. Legislation passed during the 1981 legislative session provided for a reduction in the property tax rate based upon a legislatively derived formula.

To help offset this loss in property tax revenue, the state sales tax was increased from 3.5% to 5.75% by the State Legislature. The 1991 legislature further increased the minimum sales tax to 6.5%. This increase in sales tax, less .5% of collections to cover administrative costs, is being returned to the local governments as a part of the consolidated tax. The amount of sales tax to be distributed to each governmental entity in Nevada is determined by a formula developed and approved by the State Legislature.

Taxes on real property are levied and the lien on the property attached on July 1 (the levy date) of the year for which the taxes are levied. Taxes are due on the third Monday in August; however, they may be paid in four installments payable on the third Monday in August, and the first Mondays in October, January and March. Any tax paid more than ten days late is assessed a penalty. In the event of nonpayment, the Eureka County Treasurer records a Trustee's Certificate holding the property for a period of two years after the first Monday in June of the year the certificate is dated, unless sooner redeemed upon payment of taxes, penalties and costs together with interest at the rate of 10% per year from the date the taxes were due until paid. If delinquent taxes are not paid within the two-year redemption period, the Eureka County Treasurer, obtains a tax deed to the property free of all encumbrances. Upon receipt of a deed, the Eureka County Treasurer may sell the property to satisfy the tax lien once all requirements are met.

Taxes on personal property are collected currently. Personal property declarations are mailed out annually and the tax is computed using percentages of taxable values established by the Department of Taxation and tax rates described above. The major classifications of personal property are commercial, mobile homes, marine, aircraft and agricultural. In Eureka County, taxes on motor vehicles are also collected by the Eureka County Assessor and remitted to the State. The taxes are then returned to the County of origin to be apportioned based on a statutory formula as part of Consolidated Tax Revenue.

Eureka County collects property taxes for all entities with a tax rate within the County and remits the tax collected the month following collection to the appropriate entity.

Property tax revenue and the related receivable have been recognized for property tax assessments in the fiscal year for which they were levied, provided that such taxes were collected within 60 days after the District's year-end. Taxes receivable not collected within such time period are recorded as unavailable revenue at the District's year-end in the individual fund financial statements.

### **Cash and Cash Equivalents**

The District's cash and cash equivalents are considered to be cash on hand or demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. The District's cash and cash equivalents are held by the Eureka County Treasurer in the County's pooled cash accounts and invested in accordance with Nevada Revised Statutes.

### **Capital Assets**

Capital assets are valued in accordance with policy adopted as detailed below:

- 1. All assets acquired are recorded at cost.
- 2. Expenditures over \$3,500 are capitalized as capital assets.
- 3. Donated capital assets are valued at their estimated acquisition value on the date donated.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Improvements other than buildings5 - 10 yearsBuildings and improvements40 yearsEquipment and vehicles5 - 10 years

The District reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating results, trends and prospects, the manner in which the property is used, and the effects of obsolescence, demand, competition, and other economic factors. Based on this assessment there was no impairment at June 30, 2024.

<u>Fund Financial Statements</u> – In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures by the General Fund upon acquisition.

### **Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from these estimates.

### **Fund Balance/Net Position**

<u>Government-wide Financial Statements</u> – The government-wide Statement of Net Position utilizes a net position presentation. Net position is categorized as investment in capital assets, restricted and unrestricted. Investment in capital assets includes capital assets net of depreciation. The District currently does not have restricted net position and unrestricted net position represents all available financial resources of the District.

<u>Fund Financial Statements</u> – In the governmental fund financial statements, the following classifications of fund balance are used:

- Nonspendable Amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact. The District has no nonspendable fund balance.
- Restricted Amounts that can be spent only for specific purposes because of constitutional provisions, enabling legislation, or because of constraints that are externally imposed by creditors, grantors, contributors, or the law or regulations of other governments. The District has no restricted fund balance.
- Committed Amounts that can only be used for specific purposes. Committed fund balance may only be established, rescinded, or changed pursuant to resolutions passed by the District, the District's highest level of decision-making authority. The District has no committed fund balance.
- Assigned Amounts that the District intends to use for a specific purpose, but do not meet the definitions of restricted or committed fund balance. Under the District's adopted policy, amounts may be assigned by the Budget Officer under the authorization of the Board.
- Unassigned Amounts that have not been restricted, committed, or assigned to a specific purpose within the General Fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted amounts are available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned amounts are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally, unassigned funds, as needed, unless the Board of Directors have provided otherwise in their commitment or assignment actions.

The District does not have a minimum fund balance policy.

### **Deferred Inflows and Outflows of Resources**

In addition to assets, the Statement of Net Position/Governmental Funds Balance Sheet may report a separate section for deferred outflows of resources. This separate statement element represents the consumption of net position/fund balance that applies to future periods and so will not be recognized as an outflow of resources (expense) until then. The District does not report any deferred outflows of resources.

In addition to liabilities, the Statement of Net Position/Governmental Funds Balance Sheet may report a separate section for deferred inflows of resources. This separate statement element represents an acquisition of net position/fund balance that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The District reflects deferred inflows of resources which are unavailable revenue reported in the government fund balance sheet for delinquent property taxes under the modified accrual basis of accounting.

### **Net Proceeds of Mines Tax**

Net proceeds of mines are paid on an annual, calendar year basis. For the year ended June 30, 2024, net proceeds of mines received on actual business from January 1, 2023 through December 31, 2023 are reflected in the financial statements. Net proceeds of mines from January 1, 2024 through June 30, 2024 are neither measurable nor available to meet obligations existing at June 30, 2024. Overpayments must be credited toward the payment due the next calendar year, the amount of the remaining overpayment, after being credited to any other tax or fee due from the taxpayer, may be refunded. The overall financial impact to the District of future additional amounts due or future credits is not determinable at June 30, 2024 and are not reflected in these financial statements.

### **Risk Management**

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; injuries of employees; and natural disasters, as are all entities. The District has joined together with similar public agencies (cities, counties and special districts) throughout the State of Nevada to create a pool under the Nevada Inter-local Cooperation Act. The Nevada Public Agency Insurance Pool (POOL) is a public entity risk pool currently operating as a common risk management and insurance program for its members.

The District pays an annual premium and specific deductibles, as necessary to POOL for its general insurance coverage. POOL is considered a self-sustaining risk pool that will provide liability coverage for its members up to \$10,000,000 per event and a \$13,000,000 general aggregate per member. Property, crime and equipment breakdown coverage is provided to its members up to \$300,000,000 per loss with various sub-limits established for earthquake, flood, equipment breakdown, and money and securities.

The District has also joined together with similar public agencies, under the Nevada Inter-local Cooperation Act, to create an intergovernmental self-insured association for workers compensation insurance, the Public Agency Compensation Trust (PACT).

The District pays premiums based on payroll costs to PACT. PACT is considered a self-sustaining pool that will provide coverage based on established statutory limits.

Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

### Note 2 - Cash and Cash Equivalents

A summary schedule of cash and cash equivalents for the District at June 30, 2024 is as follows:

Balances Classified by Depository and Category Deposits

Cash and investments held in Eureka County pooled cash

\$ 804,981

Custodial Credit Risk — the risk that in the event of bank failure, the District's deposits may not be returned. The District's bank deposits are covered by the Federal Deposit Insurance Corporation (FDIC) or collateralized by the Office of the State Treasurer/Nevada Collateral Pool. The District does not have a formal policy relating to custodial credit risk but follows NRS. The District participates in the State of Nevada Collateral Pool which requires depositories to maintain as collateral acceptable securities having a fair market value of at least 102 percent of the amount of the uninsured balances of the public money held by the depository. Under NRS 356.360, the State Treasurer manages and monitors all collateral for all public monies deposited by members of the pool. As of June 30, 2024, all deposits were collateralized under the Nevada Pooled Collateral Program or insured by the Federal Deposit Insurance Corporation (FDIC).

### Note 4 - Rents

On March 1, 2014, the District established a lease with Mt. Wheeler Power to allow the use of the communication tower and/or equipment shelter at the Prospect Peak site. Under the terms of this lease, monthly payments of \$200 are made to the District until March 2019. This lease agreement was renewable and was renewed for an additional 5-years, ending March 2024. The lease continued on a monthly basis through June 2024. The lease contains a 60-day termination clause under certain circumstances by either party.

On March 6, 2014, the District established a lease with GRP Pan, LLC and Eureka County to allow the use of the communication tower and/or equipment shelter at the Prospect Peak site. Under the terms of this lease, monthly payments of \$375 are made to the District until March 2019. This lease agreement was renewable and was renewed for an additional 5-years, ending March 2024. The lease contains a 60-day termination clause under certain circumstances by either party.

During the year ended June 30, 2018, the District established a lease with T-Mobile West, LLC to allow the use of the communication tower and/or equipment shelter at the Prospect Peak site. Under the terms of this lease, monthly payments of \$1,500 for rent and \$200 for utilities are made to the District until September 2022. This lease agreement is renewable for additional 5-years terms at 110% of the rental payment of the prior period. The lease was renewed for an additional 5-years, ending September 2027. Monthly payments of \$1,850 for rent and \$200 for utilities are made during this period. The lease contains a 90-day termination clause by either party.

On November 1, 2023, the District established a lease with White Pine Television District to allow the use of the communication tower and/or equipment shelter at the Prospect Peak site. Under the terms of this lease, monthly payments of \$100 are made to the District until November 2028. The lease contains a 60-day termination clause under certain circumstances by either party.

On August 1, 2023, the District established a lease with Lander County General Improvement District #1 to allow the use of the communication tower and/or equipment shelter at the Argenta Peak site. Under the terms of this lease, monthly payments of \$800 are made to the District until July 2025. The lease contains a 30-day termination clause under certain circumstances by either party.

### Note 5 - Compliance with Nevada Revised Statutes and Administrative Code

The District confirmed to all significant statutory and legal constraints on its financial administration during the year.

## Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Honorable Board of Directors Eureka County Television District, State of Nevada Eureka, Nevada

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities and each major fund of the Eureka County Television District, State of Nevada (the "District"), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 12, 2024.

### **Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and responses as item 2024-001 that we consider to be a significant deficiency.

### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Eureka County Television District's Response to Finding**

Government Auditing Standards requires the auditor to perform limited procedures on the District's response to the findings identified in our audit and described in the accompanying Schedule of Findings and Responses. The District's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

### **Auditor's Comments**

To the Honorable Board of Directors Eureka County Television District, State of Nevada Eureka, Nevada

In connection with our audit of the financial statements of the governmental activities and each major fund of the Eureka County Television District, State of Nevada (the "District") as of and for the year ended June 30, 2024, and the related notes to the financial statements, nothing came to our attention that caused us to believe that the District failed to comply with the specific requirements of Nevada Revised Statutes. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures other matters may have come to our attention regarding the District's noncompliance with the requirements of Nevada Revised Statutes, insofar as they relate to accounting matters.

### **Current Year Statute Compliance**

The District conformed to all significant statutory constraints on its financial administration during the year.

### **Progress on Prior Year Statute Compliance**

There were no prior year statute violations.

### **Disposition of Prior Year Recommendations**

Finding 2023-001 was reported in the current year as Finding 2024-001.

### **Current Year Audit Recommendations**

See items noted in the Schedule of Findings and Responses.

2024-001: Report Preparation Significant Deficiency

Criteria: Management of Eureka County Television District, State of Nevada (the District)

is responsible for establishing and maintaining an effective system of internal control over financial reporting. One of the key components of an effective system of internal control is a finance staff with adequate resources available to

prepare the financial statements in accordance with generally accepted

accounting principles.

Condition: The District staff does not prepare financial statements in accordance with

generally accepted accounting principles. Therefore, Eide Bailly LLP prepared the District's audited financial statements including related note disclosures.

Effect: The District's internally prepared annual financial statements submitted to the

Board prior to the audit do not contain all the information required by generally

accepted accounting principles.

Cause: Given the daily responsibilities of management, the resources of time and

training necessary to prepare the District's financial statements in accordance with generally accepted accounting principles are not available. As a result, the District has chosen to contract with Eide Bailly LLP to prepare the financial statements. This circumstance is not unusual in an organization of this size, due to time constraints of management and costs associated with compliance of the

standards.

Recommendation: Management should perform a detailed review of all financial statements and

fund trial balances throughout the year to ensure that all significant transactions have been appropriately reported. In addition, management and those charged with governance should annually make the decision to accept the degree of risk

associated with this condition because of costs or other considerations.

Management's Response: We agree with the finding and the District believes the most cost-effective

approach is to outsource the financial preparation function to the external

auditors.

### **EXTENSION | EUREKA COUNTY**

Annual Report | Fiscal Year 2023 - 2024

University of Nevada, Reno Extension is engaged in Nevada communities, presenting research-based knowledge to address critical community needs in the areas of agriculture; children, youth and families; community and economic development; horticulture; health and nutrition; and natural resources. It is a county-state-federal partnership providing practical education to people, businesses and communities. It is a unit of the University's College of Agriculture, Biotechnology & Natural Resources and plays a vital role in fulfilling the University's land-grant mission.

Extension, Eureka County Office 641 S. Main Street Eureka, NV 89316

**Jessica (JJ) Hendrickson**, **Extension** County Coordinator jessicahendrickson@unr.edu | 775-237-6135

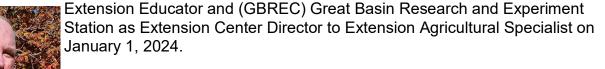

### **PEOPLE IN EXTENSION**

Jessica JJ Hendrickson joined the team as Extension County Coordinator for White Pine and Eureka counties on June 24, 2024. Her primary role as Extension County Coordinator is to work with community members to identify community-based educational needs and bring in programming that meet those needs in the areas of agriculture, children, youth and families, horticulture, community development, natural resources, and health and nutrition. Another role of the position is to supervise the White Pine and Eureka Extension offices and staff to ensure programing address community needs.

As the county coordinator for White Pine and Eureka counties, Hendrickson looks forward to engaging with community members and introducing valuable programs tailored to the unique needs of each community.

Gary McCuin transitioned roles from a split appointment between Extension as the Eureka County

His principal role as Extension Agricultural Specialist in Eureka County is to advance agricultural production in Eureka County and across Nevada by researching and teaching producers innovative, sustainable solutions to agriculture issues. Another role is to assist producers in identifying and understanding issues that are affecting their operation/s and research those

issues to discover practical ways in which new knowledge can be applied to resolve or prevent those issues.

### PEOPLE IN EXTENSION CONTINUED

Yelena Hage is our Administrative Assistant here at the Eureka Extension Office. She has worked for the GBREC (Great Basin Research and Extension Center) since June of 2023 and recently in May of 2024 accepted a full-time position that has her working the Extension Office side of things, as well as still offering support for GBREC. She plays an important role in organizing, managing, and keeping our office running. While she is mainly responsible for the clerical side of things you can often find her helping the community with radon kits, signing up the local 4-H youth for program activities, or helping with the ram sale.

Please do not hesitate to stop in and say hello to her or ask for information on any of the Programs that we provide. She is here to help and link our community to the specialists in our area regarding a wide range of topics, including but not limited to; farming, ranching, soil heath, improving nutrition and food safety, water testing, how to prepare and respond to emergencies and protecting our environment, as well as everything else in-between.

Tosha Kerby is our Community Based Instructor (CBI III) She works primarily with the 4-H Program and focuses on Youth Development within our communities. She started with the University in March of 2020. Tosha brings knowledge of the 4-H program as she herself is 4-H Alumni. As the Extension CBI she plays a vital role in supporting the development of area youth, particularly through 4-H programs. Her responsibilities include organizing community resources, overseeing the community clubs, and coordinating various extension and outreach programs for youth ages 5- 19 years old. These programs encompass workshops, after-school activities, youth mentoring, special interest

programs, summer camps, and day camps, all covering a wide range of topics and themes.

Please reach out if you are interested in volunteering and sharing your passions with the youth of our community or if you have a youth that you think would love to be a part of 4-H.

### 4-H & YOUTH DEVELOPMENT

The key to the 4-H Program is the development of life skills that help participants lead productive and satisfying lives. The program focused on fostering skills that are healthy and productive for both youth and their communities.

This year we helped youth meet their basic needs and acquire the competencies important to their immediate and future success both within the 4-H program, as well as the community.

The Eureka 4-H Program had a total of 12 Volunteers that helped 57 youth that are currently enrolled in the program, with over 175 Projects done among them. Our 4-H workshops also included

28 non 4-H enrolled youth. Some of those projects include but are not limited to:

Sewing, Floral Arrangements, Hunter Safety, Wood-burning, Photography, Educational Posters, Horse, Market Livestock, Show Livestock, Shooting Sports and more!

During the year we had several new volunteers join forces with existing volunteers and leaders contributing to 800 volunteer hours being poured back into the Eureka County Community by way of teaching

youth and helping them expand their knowledge through hands on experiences. 4-H youth completed 540 community service hours directly benefiting the Eureka community. In total, both groups con-

tributed 1,340 hours of time into the Eureka County community. The monetary value of a volunteer's time in the state of Nevada is \$29.76 per hour. The fiscal impact of the time contributed back to community equaled \$39,878.40. This means, \$39,878.40 would have been required to accomplish the time our volunteers and youth freely gave back to the community! Although this number is staggering, the positive impacts contributed by the volunteers, leaders and youth into life-long memories, experiences and knowledge outweighs a monetary value.

### **EVENTS**

Some events during this year included the **Eureka Lyons Club Pumpkin Patch** where 4-H youth helped sell pumpkins and raise money by setting up fun games during the event as well as a photo booth for the community to take family photos in front of. The youth and their families also baked goods to contribute to the bake sale.

We also had the **Eureka Jr. Livestock Club Show and Sale** this year with 22 participants. 26 Buyers Registered for the Sale and showed up to show their support for all the hard work our Youth Exhibitors put in on their Market Livestock Projects. 17 total Market Animals were sold during the Sale.

A **Valentines Day Party** was held on February 14th during school hours to provide activities and enrichment for some of the local homeschool families. This was a successful event in which 12 youths and their families showed up to play games and pass around Valentine's goodies to each other.

We had a very special guest at one of our Community Club meetings: Senator Pete Goicoechea!

Senator Goicoechea came in to teach our Club Officers and Members about Roberts Rules of Order, the importance of leading a meeting, and the basics of how meetings work. We are very lucky to have members in our Community that value the youth and take time to invest in them.

### CURRICULUM

Eureka staff and others around the state are working on developing curriculum and project synthesis for Rangeland and Pasture Beef Breeding Project. This new project will focus on the production model utilized by

cattle producers in the western states. It is based on learning about and utilizing range and pasture resources, business/enterprise budgeting and management and beef breeding and production.

### **NEVADA ECONOMIC ASSESTMENT PROJECTS (NEAP)**

NEAP is a statewide program with the mission to develop and maintain an extensive data archive with timely, meaningful, and consistent characteristics and a set of analytical tools used to provide Nevada's communities with research and analysis of emerging issues through outreach and engagement.

### **Rural Housing Baseline Assessments**

Housing affordability and availability is an ongoing issue in Nevada. NEAP and Nevada Rural Housing have worked together to gather and analyze data to present the current housing situation. Baseline data collection and initial analysis was performed for Eureka County. Reports and fact sheets will be available around December 2024.

### **Foundational Public Health Services**

A national Foundational Public Health Services (FPHS) framework describes the baseline level of services that should be offered through all governmental health departments. The results of the survey will help guide future public health advocacy and investment, including the development of regional public health services. Online surveying for Eureka County was conducted and an in-person community review and verification workshop was conducted on May 23, 2024. County fact sheets will be available around the end of 2024.

### **INTEGRATED PEST MANAGEMENT**

Noxious and invasive weeds are widespread throughout Nevada and threaten the productivity of cropland, pasture and rangeland. I continue to serve on the county weed and rodent committee and assist local producers, Nevada Department of Agriculture, and Conservation Districts to provide research-based information for weed issues they encounter.

- Assisted Eureka County Public works in location and treating invasive weeds
- Participated in Pesticide Applicators workshops.

### AGRICULTURE/SUSTAINABLE AGRICULTURAL PRACTICES PROGRAM

Agriculture is a primary economic and social component of Eureka County. Providing research-based information to stakeholders to ensure sustainability of agriculture is important to all stakeholders in the county to assist long term economic and social viability of individual operations and the community.

- Provided Soil Health presentations in Eureka County and monitoring of soil health principles on farms in DV and Cottonwood Ranch.
- Participating in an alternative energy review in Diamond Valley by the Nature Conservancy for location of solar energy projects in Diamond Valley that incorporate agriculture as a dual purpose of the project. Working on securing a grant to implement an agrivoltaics solar demonstration project with Eureka County Natural Resources department, The Nature Conservancy, and UNR Extension, and a Diamond Valley producer to determine feasibility and potential dryland forage species to be utilized in agrivoltaics or dryland pasture locations.

### RANGELAND RESOURCES

Rangeland resources on both private and publicly managed lands are a crucial resource for Eureka County agricultural producers, hunters and recreationists and community. As a rural county, rangeland resources provide the foundations for all agricultural enterprises and serve as the basis for rural life and the culture and custom of the community.

Continued serving on the Eureka County Natural Resources Advisory Committee (NRAC)
to review natural resource issues on federally managed lands in Eureka County. Assisting
NRAC update of the Natural Resources section of the Eureka County Master Plan by
drafting new natural resource policy section to be vetted through NRAC and submitted to
the County Commissioners.

### GREAT BASIN RESEARCH AND EXTENSION CENTER (GBREC)

GBREC in Diamond Valley, Nevada, is home to the Rafter 7 Merinos, where our mission is to enhance profitability in the sheep industry through top-tier genetics. We focus on dual-purpose bloodlines that improve wool production, lambing rates, hardiness, longevity, and herding instinct. Every September, we hold a Ram Sale featuring high-quality purebred Merino rams and our Rafter 7 Line of Merino X Rambouillet rams, both yearlings and two-year-olds.

With over 30 years of experience, we're dedicated to helping sheep producers improve their operations. Scott Huber has recently taken on the role of manager as of January 1, 2024, and Fabrizio Cartagena continues to manage our range and sheep operations, bringing over two years of expertise to the team. We look forward to supporting your sheep operation by being a resource for educational based knowledge, just as we have for our loyal clients!

Acting Sheriff Umina,

Thank you for reaching out to me to assist in updating the Sheriffs Office budget process. I have extensive knowledge about public actor budgets and specifically Sheriffs budgets.

I would be happy to provide you with a better product moving forward.

I have 30 years of experience in law enforcement. Eighteen of those years were in executive positions that directly worked with the budget.

I estimate the process to be no more than 80 hours to complete.

As discussed, my fee is \$80 per hour plus Eurreka county mileage and per diem. In addition, the Sheriffs office will pay the cost of lodging while I am there.

If there are any questions, please reach out via email or telephone.

Thank you in advance

Ed Kilgore

RE: 2024 Renewal Application

South Area Leach Project

Water Pollution Control Permit NEV0088011

### Dear Commissioners:

Nevada Gold Mines LLC - Carlin Complex (Carlin) will be applying for a renewal of the South Area Leach Project Water Pollution Control Permit (WPCP) NEV0088011 with the Bureau of Mining Regulation and Reclamation. The renewal application will include the South Area Leach Project and all components (Property and Non-Property Leach Pads, process ponds, carbon adsorption plant, and James Creek Dry Stack Facility). Upon approval, the renewal application would authorize Carlin to extend the active WPCP an additional 5 years. Carlin plans to submit the application by December 10, 2024.

Notice of this application is provided to you, the Board of Eureka County Commissioners, as required by the Nevada Administrative Code 445A.394.

If you have any questions, please contact Tristan Tom at 775-778-2557 or me at 775-778-4005.

Sincerely,

Amanda Steensen Environmental Manager Nevada Gold Mines LLC Carlin Complex

### STATE OF NEVADA Department of Conservation and Natural Resources

Joe Lombardo, Governor James A. Settelmeyer, Director Adam Sullivan, P.E., State Engineer

December 2, 2024

Board of County Commissioners Eureka County P.O. Box 694 Eureka, NV 89316 Certified Mail # 9489 0090 0027 6554 2443 09

In accordance with the provisions of NRS §§ 533.280, 533.285 and 533.290, we respectfully submit the budget for the Fiscal Year July 1, 2025, to June 30, 2026. The assessment must be charged against each water user, which must be based upon the proportion which the water right of that water user bears to the aggregate water rights in the stream system, for the distribution of the waters of the Humboldt River as decreed and as prorated to those claimants within Eureka County and itemized on the accompanying list.

The amount of \$27,709.08 will be required for the payment of necessary expenses incurred for supervision over distribution of the decreed water and include, but not limited to salaries of the water commissioners, special studies, water measurements, crop inventories, field investigations, associated data collection and management.

We are enclosing a certificate to be signed and returned indicating that the assessment rate necessary to support the proposed budget has been acted on by the County Commissioners and the amount certified to the Assessor.

Sincerely,

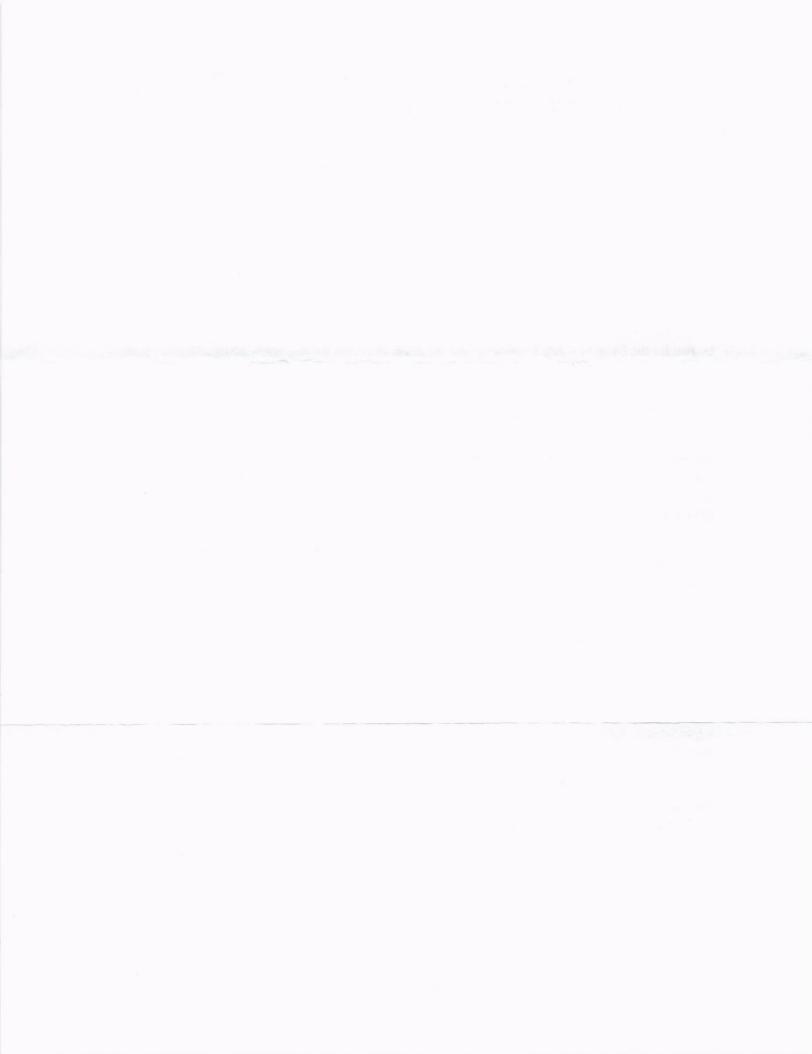

Adam Sullivan, P.E. State Engineer
